

## Viatriis Inc. Announces 2021 Financial Guidance and Reaffirms Strategic and Financial Commitments

February 22, 2021

PITTSBURGH, Feb. 22, 2021 /PRNewswire/ -- Viatriis Inc. (NASDAQ: VTRS) today announced its 2021 financial guidance and reaffirmed its commitment to rapid de-leveraging, to enhancing and growing free cash flows, particularly following the phasing out of one-time and other stand up costs, to initiating a dividend, and to delivering total shareholder return (TSR).

2021 Financial Guidance		
	Range (Billions)	Midpoint (Billions)
Revenue	\$17.2 - \$17.8	\$17.5
Adjusted EBITDA (1)	\$6.0 - \$6.4	\$6.2
Free Cash Flow (1)	\$2.0 - \$2.3	\$2.15
(1) Non-GAAP financial measures. Please see "Non-GAAP Financial Measures" for additional information.		
The 2021 Free Cash Flow guidance includes \$1.5 billion cash cost to achieve synergies and other one-time cash costs.		

Viatriis CEO Michael Goettler said, "The strategic rationale for creating Viatriis is as compelling today as when we announced the transaction to create this new company in July 2019. We launched Viatriis with a TSR-focused operating model and a commitment to maintaining a strong balance sheet. As we previously stated, our company's priorities in the first three years as we stand up Viatriis will be predominately focused on rebalancing the business, generating strong and growing free cash flows, and rapidly de-leveraging.

"We are confident that our financial guidance for 2021 is the right starting point for Viatriis and continue to expect 2021 to be our trough year in terms of revenue, adjusted EBITDA and free cash flow, reflecting a balanced view of both near-term tailwinds and headwinds, particularly given the delay in closing of the combination between Mylan and Pfizer's Upjohn business," Goettler said.

Goettler continued, "Our Global Healthcare Gateway<sup>®</sup> will fuel our future growth by leveraging our own diverse portfolio and pipeline, as well as those of our current and future partners through our unmatched global infrastructure, and significant scientific, manufacturing and commercial capabilities, all while executing on our mission to empower people worldwide to live healthier at every stage of life. We also look forward to meeting our commitment to provide a longer-term financial outlook in the coming months."

Viatriis president Rajiv Malik said, "Since we launched Viatriis approximately 90 days ago, we have taken swift and decisive action to rebalance and position our business to succeed and compete in the current environment. This includes our multi-year global restructuring program we expect will accelerate the achievement of our \$1 billion in cost synergies in three years, instead of our initial four-year timeframe, and will position us to continue to optimize our unique platform over the long term. We have made significant progress on this program, including taking steps to optimize our commercial and functional infrastructure, consolidate manufacturing sites and implement centers of excellence to enhance innovation and efficiency. We expect this work will enable us to create a more flexible, efficient Viatriis better positioned to achieve our long-term objectives. We are looking forward to maximizing our anticipated new product launches, including biosimilars and complex generics, through our enhanced combined global manufacturing and commercial platforms."

### Initiating 2021 Dividend and Reaffirming Capital Allocation Priorities

The Viatriis Board has undertaken a comprehensive review of management's operating plan for 2021 and unanimously supports the Company's priorities for the next few years, including its priorities for capital allocation and initiating an annualized dividend of at least 25% of free cash flow for 2021. Based on the mid-point of Viatriis' 2021 free cash flow guidance of \$2.15 billion, the Board expects the Company to pay an annualized dividend of approximately \$540 million, or \$0.44 per share, with the expectation to grow the dividend amount thereafter. Due to the timing of the initiation of the dividend we expect to make three payments in 2021 totaling approximately \$400 million. The Company expects the first quarterly dividend of \$0.11 per share to be declared in May 2021 and distributed in June 2021, subject to the Board's first quarter 2021 review.

The Company expanded its commitment to debt paydown and to maintaining its investment grade credit rating, and now expects to repay approximately \$6.5 billion in debt by the end of 2023. In addition, the Company is targeting a long-term leverage ratio of 2.5x, with a range of 2.2x to 2.8x. The Company also continues to be committed not to institute any share repurchase programs until the leverage ratio is at least  $\leq 2.5x$ .

Viatriis chief financial officer Sanjeev Narula said, "Our disciplined approach and financial commitments of de-levering the balance sheet while delivering value to shareholders are paramount to our priorities and operational thesis. This will be supported by our expectation to enhance cash flows and create more financial flexibility. We are confident that 2021 will be our trough year as we have no significant additional near-term product Loss of Exclusivities."

### Key Metrics Utilized for 2021 Financial Guidance

<b>Adjusted Gross Margin (1)</b>	<b>58.0% - 59.0%</b>
<b>Adjusted SG&amp;A % of Total Revenue (1)</b>	<b>20.5% - 21.5%</b>

<b>British Pound (\$ / GBP)</b>	0.76
<b>Canadian Dollar (\$ / CAD)</b>	1.31
<b>China Renminbi (\$ / CNY)</b>	6.69
<b>Euro (\$ / EUR)</b>	0.84
<b>Indian Rupee (\$ / INR)</b>	73.76
<b>Japanese Yen (\$ / JPY)</b>	104.77
<b>South Korean Won (\$ / KRW)</b>	1,138.64

#### Conference Call

As previously announced, Viatris will host a conference call at 8 a.m. ET today, Feb. 22, 2021, to discuss 2021 financial guidance.

The briefing can be accessed live by calling (855) 493-3607 or (346) 354-0950 for international callers (ID#: 3235536) or at the following address on the company's website: [investor.viatris.com](http://investor.viatris.com). The slide presentation and replay of the webcast also will be available on the website.

#### Non-GAAP Financial Measures

This press release includes the presentation and discussion of certain financial information that differs from what is reported under accounting principles generally accepted in the United States of America ("U.S. GAAP"). These non-GAAP financial measures, including, but not limited to, adjusted EBITDA, free cash flow, adjusted gross margin, adjusted R&D and as a % of total revenues, adjusted SG&A and as a % of total revenues, adjusted effective tax rate and long-term leverage ratio target of  $\leq 2.5x$ , are presented in order to supplement investors' and other readers' understanding and assessment of the financial performance of Viatris. Viatris has provided reconciliations of such non-GAAP financial measures to the most directly comparable U.S. GAAP financial measures. Investors and other readers are encouraged to review the related U.S. GAAP financial measures and the reconciliations of the non-GAAP measures to their most directly comparable U.S. GAAP measures set forth in this press release, and investors and other readers should consider non-GAAP measures only as supplements to, not as substitutes for or as superior measures to, the measures of financial performance prepared in accordance with U.S. GAAP.

The stated forward-looking non-GAAP financial measure of Viatris targeting a long-term leverage ratio of 2.5x, with a range of 2.2x to 2.8x, is based on the ratio of (i) targeted long-term average debt and (ii) targeted long-term Credit Agreement Adjusted EBITDA. However, Viatris has not quantified future amounts to develop this target but has stated its goal to manage long-term average debt and adjusted EBITDA over time in order to generally maintain or reach the target. This target does not reflect company guidance. For the quarter ended September 30, 2020, Mylan's Credit Agreement Adjusted EBITDA was based on the sum of (i) Mylan's adjusted EBITDA for the quarters ended December 31, 2019, March 31, 2020, June 30, 2020 and September 30, 2020 and (ii) certain adjustments permitted to be included in Credit Agreement Adjusted EBITDA as of September 30, 2020 pursuant to the revolving credit facility dated as of July 27, 2018 (as amended, supplemented or otherwise modified from time to time), among Mylan Inc., as borrower, the Company, as guarantor, certain affiliates and subsidiaries of the Company from time to time party thereto as guarantors, each lender from time to time party thereto and Bank of America, N.A., as administrative agent (the "Credit Agreement"). Viatris is party to a credit agreement, dated June 16, 2020, by and among Viatris, certain lenders and issuing banks from time-to-time party thereto and Bank of America, N.A., as administrative agent, that going forward will permit similar adjustments as the Credit Agreement to be included in Credit Agreement Adjusted EBITDA for Viatris. For the quarter ended September 30, 2020, Mylan N.V. ("Mylan") calculated adjusted EBITDA as U.S. GAAP net earnings (loss) adjusted for clean energy investments pre-tax loss, income tax (benefit) provision, interest expense and depreciation and amortization (to get to EBITDA) and further adjusted for share-based compensation expense, litigation settlements and other contingencies, net and restructuring, acquisition related and other special items to get to adjusted EBITDA. Mylan was the accounting acquiror in the transaction pursuant to which Mylan combined with Pfizer Inc.'s Upjohn business (the "Upjohn Business") in a Reverse Morris Trust transaction (the "Combination") and therefore the historical financial statements of Mylan for periods prior to the Combination are considered to be the historical financial statements of Viatris. However, future non-GAAP financial measures used by Viatris may not be directly comparable to the historical Mylan non-GAAP financial measures set forth above.

#### Full Year 2021 Guidance Items (Unaudited; in millions)

	<b>GAAP</b>	<b>Non-GAAP</b>
<b>Revenue</b>	<b>\$17,200 - \$17,800</b>	<b>N/A</b>
<b>Net Loss</b>	<b>\$(100) - \$(300)</b>	<b>N/A</b>
