Notes to Condensed Consolidated Financial Statements (Unaudited)

1. General

The accompanying unaudited condensed consolidated financial statements (“interim financial statements”) of Viatris Inc. and subsidiaries were prepared in accordance with U.S. GAAP and the rules and regulations of the SEC for reporting on Form 10-Q; therefore, as permitted under these rules, certain footnotes and other financial information included in audited financial statements were condensed or omitted. The interim financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the interim results of operations, comprehensive (loss) earnings, financial position, equity and cash flows for the periods presented.

These interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto in Viatris’ 2025 Form 10-K. The December 31, 2025 condensed consolidated balance sheet was derived from audited financial statements.

The interim results of operations and comprehensive (loss) earnings for the three and six months ended June 30, 2026, and cash flows for the six months ended June 30, 2026, are not necessarily indicative of the results to be expected for the full fiscal year or any other future period.

2. Revenue Recognition and Accounts Receivable

The Company recognizes revenues in accordance with ASC 606, *Revenue from Contracts with Customers*. Under ASC 606, the Company recognizes net revenue for product sales when control of the promised goods or services is transferred to our customers in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services. Revenues are recorded net of provisions for variable consideration, including discounts, rebates, governmental rebate programs, price adjustments, returns, chargebacks, promotional programs and other sales allowances. Accruals for these provisions are presented in the condensed consolidated financial statements as reductions in determining net sales and as a contra asset in accounts receivable, net (if settled via credit) and other current liabilities (if paid in cash).

Our net sales may be impacted by wholesaler and distributor inventory levels of our products, which can fluctuate throughout the year due to the seasonality of certain products, pricing, the timing of product demand, purchasing decisions and other factors. Such fluctuations may impact the comparability of our net sales between periods.

Consideration received from licenses of intellectual property is recorded as other revenues. Royalty or profit share amounts, which are based on sales of licensed products or technology, are recorded when the customer’s subsequent sales or usages occur. Such consideration is included in other revenues in the condensed consolidated statements of operations.

The following table presents the Company’s net sales by product category for each of our reportable segments for the three and six months ended June 30, 2026 and 2025, respectively:

Accounts Receivable Factoring Arrangements

We have entered into accounts receivable factoring agreements with financial institutions to sell certain of our non-U.S. accounts receivable. These transactions are accounted for as sales and result in a reduction in accounts receivable because the agreements transfer effective control over and risk related to the receivables to the buyers. Our factoring agreements do not allow for recourse in the event of uncollectibility, and we do not retain any interest in the underlying accounts receivable once sold. We derecognized \$250.6 million and \$301.9 million of accounts receivable as of June 30, 2026 and December 31, 2025, respectively, under these factoring arrangements. Additionally, we have a similar arrangement for certain European countries. As of June 30, 2026, we assigned and derecognized approximately \$84.0 million of *Trade Receivables, Net*, which were included in *Other Receivables*. As of December 31, 2025, no amounts were assigned and derecognized.

3. Recent Accounting Pronouncements*Adoption of New Accounting Standards*

In July 2025, the FASB issued ASU 2025-05, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses for Accounts Receivable and Contract Assets*, which provides a practical expedient permitting an entity to assume that conditions as of the balance sheet date remain unchanged over the life of the asset when estimating expected credit losses for current accounts receivable and current contract assets. ASU 2025-05 is effective for annual reporting periods beginning after December 15, 2025, and interim reporting periods within those annual reporting periods, with early adoption permitted. Entities should apply the new guidance prospectively. We adopted this guidance beginning January 1, 2026. The adoption of this ASU did not have a material impact on the Company's condensed consolidated financial statements and disclosures.

There were no other significant changes in new accounting standards from those disclosed in Viatris' 2025 Form 10-K. Refer to Viatris' 2025 Form 10-K for additional information.

4. Divestitures

By the end of 2024, the Company had substantially completed the previously announced divestitures of its OTC Business, its women's healthcare business primarily related to oral and injectable contraceptives, its API business in India, its rights to two women's healthcare products in certain countries, and commercialization rights in the majority of the Upjohn Distributor Markets.

During the six months ended June 30, 2026, the Company recorded additional pre-tax charges of approximately \$13.9 million, and during the three and six months ended June 30, 2025, the Company recorded pre-tax charges of approximately \$43.8 million and \$80.7 million, respectively, primarily related to the divestitures of the OTC and API businesses. The additional charges were recorded as a component of *Other (Income) Expense, Net* in the condensed consolidated statements of operations, and were primarily due to an increase in estimated transaction related costs, including the assumption of additional contractual obligations, as well as the impact of working capital and other transaction-related adjustments.

In conjunction with these transactions, Viatris and the respective buyers entered into various agreements to provide a framework for our relationship with the respective buyers after the closing of the divestitures, including transition services agreements, manufacturing and supply agreements, and distribution agreements, some of which include various on-going financial obligations. The transition services and distribution agreements were substantially concluded as of December 31, 2025.

Sale of Tyrvaya® Product Rights

On August 3, 2026, the Company entered into a definitive agreement to sell the product rights for Tyrvaya® for upfront cash consideration of \$30 million and potential contingent sales milestones of up to \$70 million. During the second quarter of 2026, the Company determined that the intangible asset related to Tyrvaya® should be classified as held for sale. Upon classification as held for sale, the Company recognized a charge of \$177.8 million to write down the intangible asset to fair value, less cost to sell. The charge is included in *SG&A* on the condensed consolidated statements of operations. The assets reclassified as held for sale are included in *Prepaid Expenses and Other Current Assets* in the condensed consolidated balance sheet.

5. Share-Based Incentive Plan

Prior to the Distribution, Viatris adopted and Pfizer, in the capacity as Viatris' sole stockholder at such time, approved the 2020 Incentive Plan (the *Viатris Inc. 2020 Stock Incentive Plan*) which became effective as of the Distribution. In connection with the Combination, as of November 16, 2020, the Company assumed the 2003 LTIP (*Mylan N.V. Amended and Restated 2003 Long-Term Incentive Plan*), which had previously been approved by Mylan shareholders. The 2020 Incentive Plan includes 72,500,000 shares of Viatris' common stock authorized for grant pursuant to the 2020 Incentive Plan, which may include dividend payments payable in common stock on unvested shares granted under awards. No shares remain available for issuance under the 2003 LTIP, however, certain awards remain outstanding under the plan.

The Board approved an amendment to the 2020 Incentive Plan, which was approved by Viatris shareholders on December 6, 2024, to increase the maximum aggregate number of shares of Viatris common stock available for issuance under the 2020 Incentive Plan by 49,000,000.

Under the 2020 Incentive Plan, shares are reserved for issuance to key employees, consultants, independent contractors and non-employee directors of the Company through a variety of incentive awards, including: stock options, stock appreciation rights, restricted stock and units, PSUs, other stock-based awards and short-term cash awards. Stock option awards are granted with an exercise price equal to the fair market value of the shares underlying the stock options at the date of the grant, generally become exercisable over periods ranging from three to four years, and generally expire in ten years.

The following table summarizes stock options activity:

	Number of Stock Options	Weighted Average Exercise Price per Share
Outstanding at December 31, 2025	2,460,805	\$ 34.21
Exercised	(20,512)	7.61
Forfeited	(553,691)	43.47
Outstanding at June 30, 2026	1,886,602	\$ 31.79
Vested and expected to vest at June 30, 2026	1,886,578	\$ 31.79
Exercisable at June 30, 2026	1,886,475	\$ 31.79

As of June 30, 2026, stock options outstanding, stock options vested and expected to vest, and stock options exercisable each had average remaining contractual terms of 2.3 years, and each had aggregate intrinsic values of approximately \$0.3 million.

A rollforward of the changes in the Company's nonvested Restricted Stock Awards (restricted stock and restricted stock unit awards, including PSUs) from December 31, 2025 to June 30, 2026 is presented below:

	Number of Restricted Stock Awards	Weighted Average Grant-Date Fair Value Per Share
Nonvested at December 31, 2025	32,916,111	\$ 10.59
Granted	14,506,490	13.68
Released	(15,496,398)	10.90
Forfeited	(2,256,695)	11.18
Nonvested at June 30, 2026	29,669,508	\$ 11.90

As of June 30, 2026, the Company had \$238.6 million of total unrecognized compensation expense, net of estimated forfeitures, related to all of its stock-based awards, which we expect to recognize over the remaining weighted average vesting period of 1.7 years. The total intrinsic value of Restricted Stock Awards released and stock options exercised during the six months ended June 30, 2026 and 2025 was \$220.9 million and \$118.8 million, respectively.

6. Pensions and Other Postretirement Benefits
Defined Benefit Plans

The Company sponsors various defined benefit pension plans in several countries. Benefits provided generally depend on length of service, pay grade and remuneration levels. Employees in the U.S., Puerto Rico and certain international locations are also provided retirement benefits through defined contribution plans.

The Company also sponsors other postretirement benefit plans including plans that provide for postretirement supplemental medical coverage. Benefits from these plans are provided to employees and their spouses and dependents who meet various minimum age and service requirements. In addition, the Company sponsors other plans that provide for life insurance benefits and postretirement medical coverage for certain officers and management employees.

Net Periodic Benefit Cost

Components of net periodic benefit cost for the three and six months ended June 30, 2026 and 2025 were as follows:

(In millions)	Pension and Other Postretirement Benefits			
	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2026	2025	2026	2025

Net periodic benefit cost	<u>\$ 5.5</u>	<u>\$ 4.0</u>	<u>\$ 11.0</u>	<u>\$ 8.0</u>

The Company is making the minimum mandatory contributions to its defined benefit pension plans in the U.S. and Puerto Rico for the 2026 plan year. The Company expects to make total benefit payments of approximately \$170.0 million from pension and other postretirement benefit plans in 2026. The Company anticipates making contributions to pension and other postretirement benefit plans of approximately \$60.9 million in 2026.

On July 17, 2025, the Company approved an amendment to terminate one of its defined benefit plans in the United States (the “U.S. Plan”). The distribution of the U.S. Plan assets pursuant to the termination will not be made until the plan termination satisfies all regulatory requirements, which is expected to be completed by the end of 2026. U.S. Plan participants will receive their full accrued benefits from plan assets by electing either lump sum distributions or annuity contracts with a qualifying third-party annuity provider. The resulting settlement effect of the U.S. Plan termination will be determined based on prevailing market conditions, the lump sum offer participation rate of eligible participants, the actual lump sum distributions, and annuity purchase rates at the date of distribution. As a result, the Company is currently unable to reasonably estimate either the timing or the final amount of such settlement charges. Based on the valuation performed as of January 1, 2026, the U.S. Plan had an overfunded status of approximately \$0.2 million.

Diluted (loss) earnings per share is computed by dividing net (loss) earnings attributable to holders of Viatris Inc. common stock by the weighted average number of shares outstanding during the period increased by the number of additional shares that would have been outstanding related to potentially dilutive securities or instruments, if the impact is dilutive.

Additional stock options and Restricted Stock Awards were outstanding during the three and six months ended June 30, 2026 and 2025, but were not included in the computation of diluted (loss) earnings per share for each respective period because the effect would be anti-dilutive. Excluded shares also include certain PSUs whose performance conditions had not been fully met. Such excluded shares and anti-dilutive awards represented 19.9 million shares and 11.0 million shares for the three and six months ended June 30, 2026, respectively, and 27.6 million shares and 27.4 million shares for the three and six months ended June 30, 2025, respectively.

The Company paid a quarterly cash dividend of \$0.12 per share on the Company's issued and outstanding common stock in March 2026 and June 2026. On August 3, 2026, the Company's Board of Directors declared a quarterly cash dividend of \$0.12 per share on the Company's issued and outstanding common stock, which will be payable on September 16, 2026 to shareholders of record as of the close of business on August 21, 2026. The declaration and payment of future dividends to holders of the Company's common stock will be at the discretion of the Board of Directors, and will depend upon factors, including but not limited to, the Company's financial condition, earnings, capital requirements of its businesses, legal requirements, regulatory constraints, industry practice, and other factors that the Board of Directors deems relevant. The Company also paid quarterly cash dividends of \$0.12 per share on the Company's issued and outstanding common stock in each of the four quarters of 2025.

On February 28, 2022, the Company announced that its Board of Directors had authorized a share repurchase program for the repurchase of up to \$1.0 billion of the Company's shares of common stock. The Company subsequently announced that on February 26, 2024, its Board of Directors authorized a \$1.0 billion increase to the Company's previously announced \$1.0 billion share repurchase program. As a result, the Company's share repurchase program now authorizes the repurchase of up to \$2.0 billion of the Company's shares of common stock. Such repurchases may be made from time-to-time at the Company's discretion and effected by any means, including but not limited to, open market repurchases, pursuant to plans in accordance with Rules 10b5-1 or 10b-18 under the Exchange Act, privately negotiated transactions (including accelerated stock repurchase programs) or any combination of such methods as the Company deems appropriate. The program does not have an expiration date. The share repurchase program does not obligate the Company to acquire any particular amount of common stock.

During the three and six months ended June 30, 2026, the Company repurchased approximately 9.4 million shares of common stock at a cost of approximately \$150.0 million under the program. During the three and six months ended June 30, 2025, the Company repurchased approximately 20.2 million shares of common stock at a cost of approximately \$175.0 million, and 38.9 million shares of common stock at a cost of approximately \$350.4 million, respectively, under the program. As of June 30, 2026, the Company had repurchased a total of approximately 103.5 million shares of common stock at a cost of approximately \$1.15 billion under the program. Additionally, subsequent to June 30, 2026, the Company repurchased

approximately 7.1 million shares of common stock at a cost of approximately \$120.2 million under the program, bringing the total to approximately 110.6 million shares of common stock at a cost of approximately \$1.27 billion under the program, in each case through and including August 4, 2026.

9. Goodwill and Intangible Assets

Goodwill

The changes in the carrying amount of goodwill for the six months ended June 30, 2026 are as follows:

<i>(In millions)</i>	Developed Markets ⁽¹⁾	Greater China	JANZ ⁽²⁾	Emerging Markets ⁽³⁾	Total
Balance at December 31, 2025:	5,024.5	933.2	—	797.0	6,754.7

Balance at June 30, 2026:	<u>\$ 4,918.3</u>	<u>\$ 939.1</u>	<u>\$ —</u>	<u>\$ 797.0</u>	<u>\$ 6,654.4</u>

⁽¹⁾ Balances as of June 30, 2026 and December 31, 2025 include an accumulated impairment loss of \$3.19 billion.

⁽²⁾ Balances as of June 30, 2026 and December 31, 2025 include an accumulated impairment loss of \$651.8 million.

⁽³⁾ Balances as of June 30, 2026 and December 31, 2025 include an accumulated impairment loss of \$499.0 million.

The Company reviews goodwill for impairment annually on April 1st or more frequently if events or changes in circumstances indicate that the carrying value of goodwill may not be recoverable.

The Company performed the annual goodwill impairment test as of April 1, 2026. The Company performed its annual goodwill impairment test on a quantitative basis for its four reporting units with remaining goodwill (North America, Europe, Emerging Markets, and Greater China). In estimating each reporting unit's fair value, the Company performed an extensive valuation analysis, utilizing a discounted cash flow approach. The determination of the fair value of the reporting units requires the Company to make significant estimates and assumptions that affect the reporting unit's expected future cash flows. These estimates and assumptions, utilizing Level 3 inputs, primarily include, but are not limited to, the discount rate, terminal growth rates, operating income before depreciation and amortization, capital expenditures forecasts and control premium. As of April 1, 2026, the Company's North America and Emerging Markets reporting units each had fair values in excess of 10% of the respective unit's carrying value, and the Company's Europe and Greater China reporting units each had fair values in excess of 40% of the respective unit's carrying value.

As of April 1, 2026, the allocation of the Company's total goodwill was as follows: North America \$2.40 billion, Europe \$2.57 billion, Emerging Markets \$0.80 billion, and Greater China \$0.94 billion.

Due to the inherent uncertainty involved in making these estimates, actual results could differ from those estimates. In addition, changes in underlying assumptions, especially as they relate to the key assumptions detailed, could have a significant impact on the fair value of the reporting units.

During the first quarter of 2025, the Company experienced a sharp and sustained decline in its share price and significantly increased uncertainty and volatility in the geopolitical and economic environments in which the Company operates. As a result of these factors, the Company determined that a triggering event had occurred for each of its reporting units and performed an interim goodwill impairment test as of March 31, 2025 and recorded a non-cash goodwill impairment charge of \$2.94 billion as a result of the interim goodwill impairment test performed. After the goodwill impairment charge recorded during the first quarter of 2025, there was no remaining goodwill allocated to the JANZ reporting unit.

10. Financial Instruments and Risk Management

The Company is exposed to certain financial risks relating to its ongoing business operations. The primary financial risks that are managed by using derivative instruments are foreign currency risk and interest rate risk.

Foreign Currency Risk Management

In order to manage certain foreign currency risks, the Company enters into foreign exchange forward contracts to mitigate risk associated with changes in spot exchange rates of mainly non-functional currency denominated assets or liabilities. The foreign exchange forward contracts are measured at fair value and reported as current assets or current liabilities in the condensed consolidated balance sheets. Any gains or losses on the foreign exchange forward contracts are recognized in earnings in the period incurred in the condensed consolidated statements of operations.

The Company has also entered into forward contracts to hedge forecasted foreign currency denominated sales from certain international subsidiaries and a portion of forecasted intercompany inventory sales denominated in Euro, Japanese Yen, and Chinese Renminbi for up to eighteen months. These contracts are designated as cash flow hedges to manage foreign currency transaction risk and are measured at fair value and primarily reported as current assets or current liabilities in the condensed consolidated balance sheets. Any changes in the fair value of designated cash flow hedges are deferred in AOCE and are reclassified into earnings when the hedged item impacts earnings.

Net Investment Hedges

The Company may hedge the foreign currency risk associated with certain net investment positions in foreign subsidiaries by either borrowing directly in foreign currencies and designating all or a portion of the foreign currency debt as a hedge of the applicable net investment position or entering into foreign currency swaps that are designated as hedges of net investments.

The Company has designated certain Euro and Yen borrowings as a hedge of its investment in certain Euro-functional and Yen-functional currency subsidiaries in order to manage foreign currency translation risk. Borrowings designated as net investment hedges are marked-to-market using the current spot exchange rate as of the end of the period, with gains and losses included in the foreign currency translation component of AOCE until the sale or substantial liquidation of the underlying net investments. In addition, the Company manages the related foreign exchange risk of the Euro and Yen borrowings not designated as net investment hedges through certain Euro and Yen denominated financial assets and forward currency swaps.

The following table summarizes the principal amounts of the Company's outstanding Euro and Yen borrowings and the notional amounts of the Euro and Yen borrowings designated as net investment hedges:

<i>(In millions)</i>	Principal Amount	Notional Amount Designated as a Net Investment Hedge

⁽¹⁾ In February 2026, the Company de-designated the €750.0 million 3.125% Euro Senior Notes due 2028 as net investment hedges.

At June 30, 2026, the principal amount of the Company's outstanding Yen borrowings and the notional amount of the Yen borrowings designated as net investment hedges was \$246.1 million.

During the third quarter of 2023, the Company executed fixed-rate cross-currency interest rate swaps with notional amounts totaling Japanese Yen 14.6 billion with settlement dates through 2026. During the third quarter of 2025, the Company terminated its Yen fixed-rate cross-currency interest rate swaps in exchange for \$3.4 million in cash proceeds, net of fees. During the second quarter of 2024, the Company executed fixed-rate cross-currency interest rate swaps with notional amounts totaling €500 million with settlement dates through 2026. In March 2026, the Company made payments totaling \$37.7 million in conjunction with the termination of its Euro fixed-rate cross-currency interest rate swaps. The transactions hedged a portion of the Company's net investment in certain Yen- and Euro-functional currency subsidiaries. All changes in the fair value of these derivative instruments, which are designated as net investment hedges, were marked-to-market using the current spot exchange rate as of the end of the period. The portion of these changes related to the excluded component were amortized in interest expense over the life of the derivative while the remainder was recorded in AOCE until the sale or substantial liquidation of the underlying net investments. The semiannual net interest payment received related to the fixed-rate component of the cross-currency interest rate swaps were reflected in operating cash flows.

During the second quarter of 2025, the Company executed foreign currency forward contracts with notional amounts totaling Chinese Renminbi 1.42 billion (approximately \$200 million) maturing in December 2026 and Chinese Renminbi 695 million (approximately \$100 million) maturing in December 2027. During the second quarter of 2026, the Company settled certain of these foreign currency forward contracts with notional amounts totaling \$100 million that were maturing in December 2026 and entered into new contracts with notional amounts totaling \$50 million maturing in December 2027 and \$25 million maturing in December 2028. The transactions hedge a portion of the Company's net investment in certain Chinese Renminbi functional currency subsidiaries. The contracts are designated as net investment hedges.

Interest Rate Risk Management

The Company enters into interest rate swaps from time to time in order to manage interest rate risk associated with the Company's fixed-rate and floating-rate debt. Interest rate swaps that meet specific accounting criteria are accounted for as fair value or cash flow hedges. All derivative instruments used to manage interest rate risk are measured at fair value and reported as current assets or current liabilities in the condensed consolidated balance sheets. For fair value hedges, the changes in the fair value of both the hedging instrument and the underlying debt obligations are included in interest expense. For cash flow hedges, the change in fair value of the hedging instrument is deferred through AOCE and is reclassified into earnings when the hedged item impacts earnings.

Cash Flow Hedging Relationships

The Company's interest rate swaps designated as cash flow hedges fix the interest rate on a portion of the Company's variable-rate debt or hedge part of the Company's interest rate exposure associated with the variability in the future cash flows attributable to changes in interest rates. Any changes in fair value are included in earnings or deferred through AOCE, depending on the nature and effectiveness of the offset. Any ineffectiveness in a cash flow hedging relationship is recognized immediately in earnings in the condensed consolidated statements of operations.

Credit Risk Management

The Company regularly reviews the creditworthiness of its financial counterparties and does not expect to incur a significant loss from the failure of any counterparties to perform under any agreements. The Company is not subject to any obligations to post collateral under derivative instrument contracts. Certain derivative instrument contracts entered into by the Company are governed by master agreements, which contain credit-risk-related contingent features that would allow the counterparties to terminate the contracts early and request immediate payment should the Company trigger an event of default on other specified borrowings. The Company records all derivative instruments on a gross basis in the condensed consolidated balance sheets. Accordingly, there are no offsetting amounts that net assets against liabilities.

Fair Value Measurement

Fair value is based on the price that would be received from the sale of an identical asset or paid to transfer an identical liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, a fair value hierarchy has been established that prioritizes observable and unobservable inputs used to measure fair value into three broad levels, which are described below:

- *Level 1:* Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

VIATRIS INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements (Unaudited) - Continued

- *Level 2:* Observable market-based inputs other than quoted prices in active markets for identical assets or liabilities.
- *Level 3:* Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

In determining fair value, the Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, as well as considers counterparty credit risk in its assessment of fair value.

Financial assets and liabilities carried at fair value are classified in the tables below in one of the three categories described above:

For financial assets and liabilities that utilize Level 2 inputs, the Company utilizes both direct and indirect observable price quotes, including interest rate yield curves, foreign exchange forward prices and bank price quotes. Below is a summary of valuation techniques for the Company's financial assets and liabilities:

- *Cash equivalents* — valued at observable net asset value prices.
- *Equity securities, exchange traded funds* — valued at the active quoted market prices from broker or dealer quotations or transparent pricing sources at the reporting date. Unrealized gains and losses attributable to changes in fair value are included in *Other (Income) Expense, Net* in the condensed consolidated statements of operations.
- *Equity securities, marketable securities and Biocon equity shares* — valued using quoted stock prices from public exchanges at the reporting date. - *CCPS in Biocon Biologics* — In December 2025, the Company entered into definitive agreements with Biocon for the sale of the Company's equity stake in Biocon Biologics. Under the terms of the definitive agreements, Biocon acquired all of Viatris' CCPS in Biocon Biologics for total consideration of \$815.0 million, consisting of \$400.0 million in cash and \$415.0 million in newly issued equity shares of Biocon, which are listed and traded on the National Stock Exchange of India. The transaction closed during the first quarter of 2026 and the equity shares of Biocon were subject to a six-month lock up period. The Company completed the sale of its equity position in Biocon on July 14, 2026 for pre-tax total consideration of approximately \$380 million, and recorded a pre-tax loss of \$27.4 million in the third quarter of 2026. The pre-tax sale proceeds include the impacts of an approximate 2.7% block sale discount to market, transaction fees, and the strengthening of the U.S. dollar since the Company obtained the equity in January 2026. In addition, the terms of the definitive agreements accelerate the expiration of biosimilars non-compete restrictions previously placed on Viatris in 2022 in connection with Viatris' sale of its biosimilars portfolio and related commercial and other capabilities to Biocon Biologics. These restrictions expired immediately at the time of close for all ex-U.S. markets and will expire in November 2026 for the U.S. market. During the three and six months ended June 30, 2026, the Company recognized a (gain)/loss of approximately \$(56.3) million and \$8.6 million, respectively, as a result of changes in the fair value of the Biocon equity shares. During the three and six months ended June 30, 2025, the Company recorded a loss of \$284.0 million and \$399.8 million, respectively, as a result of remeasuring the CCPS in Biocon Biologics to fair value. The Company's CCPS in Biocon Biologics were classified as equity securities and were included in *Other Assets* in the condensed consolidated balance sheets. The Biocon equity shares are included in *Prepaid Expenses and Other Current Assets* in the condensed consolidated balance sheets.
- *Available-for-sale fixed income investments* — valued at the quoted market prices from broker or dealer quotations or transparent pricing sources at the reporting date. Unrealized gains and losses attributable to changes in fair value, net of income taxes, are included in accumulated other comprehensive loss as a component of shareholders' equity.
- *Interest rate swaps and foreign exchange derivative assets and liabilities* — valued using interest yield curves, quoted forward foreign exchange prices and spot rates at the reporting date. Counterparties to these contracts are highly rated financial institutions.

Contingent Consideration

As of June 30, 2026 and December 31, 2025, the Company had a contingent consideration liability of \$421.0 million and \$307.0 million, respectively, related to the Idorsia Transaction. For the six months ended June 30, 2026, the change in fair value was primarily driven by a change in probabilities on both development programs as a result of the progress of the clinical trials. As of June 30, 2026 and December 31, 2025, the Company had a contingent consideration liability of \$42.6 million and \$64.6 million, respectively, related to the Respiratory Delivery Platform.

The measurement of these contingent consideration liabilities is calculated using unobservable Level 3 inputs based on the Company's own assumptions primarily related to the probability and timing of future events, including the timing of additional potential competition, and payments which are discounted using a market rate of return. At June 30, 2026, discount rates ranging from 9.0% to 17.0%, and at December 31, 2025, discount rates ranging from 8.5% and 19.0% were utilized in the valuations. Significant changes in unobservable inputs could result in material changes to the contingent consideration liabilities.

The 2033 Euro Senior Notes are guaranteed on a senior unsecured basis by Mylan Inc., Mylan II B.V. and Utah Acquisition Sub Inc. (the “Guarantors”).

Notes to Condensed Consolidated Financial Statements (Unaudited) - Continued

The 2033 Euro Senior Notes were issued pursuant to an Indenture (the “Base Indenture”), dated June 17, 2026, among Viatris Inc., the Guarantors and The Bank of New York Mellon, as trustee (the “Trustee”), as supplemented by the First Supplemental Indenture (together with the Base Indenture, the “Indenture”), dated June 17, 2026, among Viatris Inc., the Guarantors and the Trustee. The 2033 Euro Senior Notes accrue interest at a rate of 4.250% per annum, accruing from June 17, 2026, payable annually beginning June 17, 2027, and will mature on June 17, 2033, subject to earlier repurchase or redemption in accordance with the terms of the Indenture. The Indenture contains customary affirmative covenants for facilities of this type. The 2033 Euro Senior Notes may be redeemed by Viatris as set forth in the Indenture.

YEN Term Loan

On July 1, 2026 (the “Closing Date”), Viatris entered into an amended and restated term loan credit agreement (the “Amended and Restated Term Loan Credit Agreement”), among Viatris, the guarantors from time to time party thereto, the lenders from time to time party thereto and Mizuho Bank, Ltd., as administrative agent. The Amended and Restated Term Loan Credit Agreement provides for a ¥40 billion principal amount senior unsecured term loan facility (the “Term Loan Credit Facility”).

Proceeds from the Term Loan Credit Facility will be used for general lawful corporate purposes of Viatris and its subsidiaries, including, without limitation, to repay outstanding obligations under Viatris’ prior ¥40 billion unsecured term loan facility, dated as of July 1, 2021.

The Term Loan Credit Facility will initially bear interest at the TIBO Rate (determined in accordance with the Amended and Restated Term Loan Credit Agreement) plus 1.10% per annum. The applicable margin over the TIBO Rate for the Term Loan Credit Facility can fluctuate based on the long-term unsecured senior, non-credit enhanced debt rating of Viatris by S&P Global Ratings, Moody’s Investors Service, Inc. and Fitch Ratings, Inc.

The Amended and Restated Term Loan Credit Agreement contains customary affirmative covenants for facilities of this type. The Amended and Restated Term Loan Credit Agreement also contains a financial covenant requiring maintenance of a leverage ratio no greater than 3.75 to 1.00 as of the last day of each fiscal quarter ending after the Closing Date. The Amended and Restated Term Loan Credit Agreement contains default provisions customary for facilities of this type, which are subject to customary grace periods and materiality thresholds.

13. Segment Information

Viatris has four reportable segments: Developed Markets, Greater China, JANZ, and Emerging Markets. The Company reports segment information on the basis of markets and geography, which reflects its focus on bringing its large and diversified portfolio of branded and generic products, including complex products, to people in markets everywhere. Our Developed Markets segment comprises our operations primarily in North America and Europe. Our Greater China segment includes our operations in mainland China, Taiwan and Hong Kong. Our JANZ segment consists of our operations in Japan, Australia and New Zealand. Our Emerging Markets segment encompasses our presence in more than 125 countries with developing markets and emerging economies including in Asia, Africa, Eastern Europe, Latin America and the Middle East as well as the Company's ARV franchise.

The Company's chief operating decision maker ("CODM") is the Chief Executive Officer, who evaluates the performance of its segments and allocates resources based on total revenues and our measure of segment profit or loss, segment profitability. These financial metrics are used to review operating trends, perform comparisons between periods, and monitor budget and forecast-to-actual variances on a regular basis. Net sales of our business segments exclude intersegment sales as these activities are not regularly reviewed by the CODM and are eliminated in consolidation.

Certain costs and gains are not included in the measurement of segment profitability, or in segment cost of sales, and segment SG&A, as management excludes these costs in assessing segment financial performance. Such costs and gains include:

- Intangible asset amortization expense;
- Asset impairments (including of goodwill, intangible assets (including IPR&D), and long-lived assets);
- R&D and Acquired IPR&D expense;
- Net charges or net gains for litigation settlements and other contingencies;

VIATRIS INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited) - Continued

- Certain costs related to transactions and events such as: (i) purchase accounting adjustments, where we incur expenses associated with the amortization of fair value adjustments to inventory and property, plant and equipment; (ii) share-based compensation expense; (iii) acquisition-related costs, where we incur costs for executing the transaction, integrating the acquired operations and restructuring the combined company; and (iv) other significant items, which are substantive and/or unusual, and in some cases recurring, items (such as restructuring, including costs associated with facilities to be closed or divested, employee separation costs, impairment charges, accelerated depreciation, incremental manufacturing variances, equipment relocation costs, decommissioning and other restructuring related costs, and certain remediation costs) that are evaluated on an individual basis by management and that either as a result of their nature or size, would not be expected to occur as part of our normal business on a regular basis. Such special items can include, but are not limited to, non-acquisition-related restructuring costs, as well as costs incurred for asset impairments and costs, as well as gains and losses, related to disposals of assets or businesses, including those related to divestitures, and, as applicable, any associated transition activities;

- Corporate and other unallocated costs associated with global functions (such as IT, facilities, legal, finance, human resources, insurance, public affairs, compliance, and procurement), patient advocacy activities and certain compensation and other corporate costs (such as certain expenses associated with our manufacturing, including manufacturing variances associated with production) and operations that are not directly assessed to an operating segment as business unit (segment) management does not manage these costs;

- Other (Income) Expense, Net (including interest and dividend income, gains and losses from investments, business divestitures, and foreign exchange); and

- Interest expense.

The Company does not report depreciation expense, total assets and capital expenditures by segment, as such information is not used by the CODM.

The accounting policies of the segments are the same as those described in Note 2 *Summary of Significant Accounting Policies* included in the 2025 Form 10-K.

14. Restructuring and Other
2026 Restructuring Program

In 2025, the Company initiated an EWSR to enable the Company to build a more focused, efficient and future-ready organization and position the Company for sustained growth beginning in 2026. On February 26, 2026, the Company announced the results of its EWSR, and as a part of the review, committed to and began implementation of certain restructuring activities. These restructuring activities are expected to optimize the Company's commercial capabilities, enabling functions, R&D, medical affairs and regulatory activities, and sourcing, manufacturing and supply chain activities, including inventory optimization. As a result, the Company expects a global workforce reduction of up to approximately 10%. The Company anticipates that these restructuring activities, as well as associated costs and savings, will be completed primarily over the next three years.

The Company expects to record charges for costs associated with the restructuring activities of the EWSR. For the committed restructuring activities, the Company expects to incur total pre-tax charges ranging between \$700 million and \$850 million.

Charges for restructuring and ongoing cost reduction initiatives are recorded in the period the Company commits to a restructuring or cost reduction plan, or executes specific actions contemplated by the plan and all criteria for liability recognition have been met. These charges are recognized in *Cost of Sales, R&D* and *SG&A* in the condensed consolidated statements of operations based on the classification of the affected employees or the related operations.

The following table summarizes the restructuring charges and the reserve activity for the 2026 restructuring program from December 31, 2025 to June 30, 2026:

Nashik Manufacturing Facility

As previously disclosed, in February 2026, a fire occurred in a service area at the Company's oral solid dose manufacturing facility in Nashik, India. Manufacturing at the facility was temporarily suspended.

In May 2026, the FDA inspected the facility and issued Form 483 observations. The Company responded to the Form 483 observations and promptly initiated a comprehensive remediation plan. The Company has also engaged independent third-party subject matter experts to support its remediation plan. Activities under the remediation plan are ongoing and have led to intermittent disruptions at the facility.

While production at the facility has resumed, the temporary manufacturing suspension due to the fire at the facility in February along with these intermittent disruptions are expected to impact product supply in the second half of the year.

During the three and six months ended June 30, 2026, the Company recognized total charges of \$14.9 million and \$86.8 million, respectively, within *Cost of Sales* in the condensed consolidated statements of operations primarily related to the write off of inventory and fixed assets damaged in the fire and incremental manufacturing variances. The Company believes it has certain insurance coverages for these losses, including for assets and business interruption. In the event the plant cannot be returned to sustained normal operations or the Company's insurance coverage is unavailable or inadequate, this event could have a negative impact on our financial position, results of operations and cash flows.

15. Commitments, Including Licensing and Other Partner Agreements

We periodically enter into licensing and other partner agreements with other pharmaceutical companies for the development, manufacture, marketing and/or sale of pharmaceutical products. Our significant licensing and other partner agreements are primarily focused on the development, manufacturing, supply and commercialization of multiple complex products. Under these agreements, we have future potential milestone payments and co-development expenses payable to third parties as part of our licensing, development and co-development programs. Payments under these agreements generally become due and are payable upon the satisfaction or achievement of certain developmental, regulatory or commercial milestones or as development expenses are incurred on defined projects. Milestone payment obligations are uncertain, including the prediction of timing and the occurrence of events triggering a future obligation and are not reflected as liabilities in the condensed consolidated balance sheets, except for obligations reflected as acquisition-related contingent consideration, including those related to the Idorsia Transaction. Refer to Note 10 *Financial Instruments and Risk Management* for further discussion of contingent consideration.

Our potential maximum development milestones not accrued for at June 30, 2026 totaled approximately \$408 million. We estimate that the amounts that may be paid through the end of 2026 to be approximately \$124 million. These agreements may also include potential sales-based milestones and call for us to pay a percentage of amounts earned from the sale of the product as a royalty or a profit share. The amounts disclosed do not include sales-based milestones or royalty or profit share obligations on future sales of product as the timing and amount of future sales levels and costs to produce products subject to these obligations is not reasonably estimable. These sales-based milestones or royalty or profit share obligations may be significant depending upon the level of commercial sales for each product.

Mapi

In 2018, the Company entered into an exclusive license and commercialization agreement with Mapi for the development and commercialization on a world-wide basis of GA Depot. In 2024, the Company was informed that Mapi received a Complete Response Letter regarding the NDA for GA Depot 40 mg from the FDA.

In December 2023, the Company entered into a letter agreement, as amended, with Mapi for the development and commercialization of certain additional products. The Company made an initial upfront payment of \$75.0 million during the year ended December 31, 2023 as part of the letter agreement.

In April 2026, the Company and Mapi agreed to immediately terminate the license and commercialization agreement for GA Depot and the December 2023 letter agreement.

The Company holds an investment in preferred shares of Mapi that are accounted for at cost, less impairment, adjusted for observable price changes, in accordance with ASC 321, *Investments – Equity Securities*. In 2024, the Company fully impaired its investment in the Mapi preferred shares.

There have been no other significant changes to our licensing and other partner agreements as disclosed in our 2025 Form 10-K.

In the normal course of business, Viatriis periodically enters into acquisition, divestiture, collaboration, employment, legal settlement and other agreements which include indemnification provisions. The maximum amount to which Viatriis may be exposed under such agreements cannot be reasonably estimated due to the conditional nature of the Company's obligations and the unique facts and circumstances involved in each particular agreement. Historically, we have not paid material amounts under these indemnification provisions. Further, for certain agreements, the Company maintains insurance coverage which management believes will effectively mitigate the Company's obligations under these indemnification provisions.

In connection with the Combination, the Company has generally assumed liability for, and control of, pending and threatened legal matters relating to the Upjohn Business and has agreed to indemnify Pfizer for liabilities arising out of such assumed legal matters. Pfizer, however, has agreed to retain various matters—including certain specified competition law matters—to the extent they arise from conduct during the pre-Distribution period and has agreed to indemnify the Company for liabilities arising out of such matters. If Pfizer were to successfully dispute its retention of these matters, or if there is an adverse outcome in the matters that Pfizer has agreed to retain, this could have an adverse impact on Viatriis. In addition, Viatriis agreed to pay Pfizer an amount equal to 57% of any losses actually incurred or suffered by Viatriis, its predecessors or subsidiaries, since July 29, 2019, arising out of third-party actions relating to the manufacture, distribution, marketing, promotion or sale of opioids by or on behalf of Viatriis, its predecessors or subsidiaries. In June 2026, the Company received a letter from Pfizer inquiring about the Company's plan for payment to Pfizer under the foregoing agreement. The Company disagrees that the payment Pfizer requests is owed. Any loss to the Company as a result of the foregoing disagreement could have an adverse impact on Viatriis.

16. Income Taxes

Tax Examinations

The Company is subject to income taxes and tax audits in many jurisdictions. A certain degree of estimation is thus required in recording the assets and liabilities related to income taxes. Tax audits and examinations can involve complex issues, interpretations, and judgments and the resolution of matters that may span multiple years, particularly if subject to litigation or negotiation.

Although the Company believes that adequate provisions have been made for these uncertain tax positions, the Company's assessment of uncertain tax positions, including those arising from legal entity restructuring transactions in connection with the Combination, is based on estimates and assumptions that the Company believes are reasonable, but the estimates for unrecognized tax benefits and potential tax benefits may not be representative of actual outcomes, and variations from such estimates could materially affect the Company's financial condition, results of operations or cash flows in the period of resolution, settlement or when the statutes of limitations expire.

The Company is subject to ongoing IRS examinations. The years 2020 through 2024 are open years, with 2020 and 2021 under examination. For 2020, there is one open item for which the Company disagrees with the IRS' conclusion and initiated a mediation process with the IRS through its Fast Track appeal process.

Several international audits are currently in progress. In some cases, the tax auditors have proposed adjustments or issued assessments to our tax positions, including with respect to intercompany transactions, and we are in ongoing discussions with some of the auditors regarding the validity of their tax positions.

In instances where assessments have been issued, we disagree with these assessments and believe they are without merit and incorrect as a matter of law. As a result, we anticipate that certain of these matters may become the subject of litigation before tax courts where we intend to vigorously defend our position.

VIATRIS INC. AND SUBSIDIARIES**Notes to Condensed Consolidated Financial Statements (Unaudited) - Continued**

In France, the tax authorities issued notices of assessments to the Company for the years ended December 2013 to December 2015 concerning our tax position with respect to whether income earned by a Company entity not domiciled in France should be subject to French tax. We commenced litigation before the French tax courts where the tax authorities are seeking unpaid taxes, penalties, and interest. In February 2026, the first instance tax court upheld the Company's tax position and fully cancelled the notices of assessment. In June 2026, the tax authorities filed an appeal.

In India, the tax authorities have issued notices of assessments to the Company seeking unpaid taxes and interest for the financial years covering 2013 to 2018 concerning our tax position with respect to certain corporate tax deductions and certain intercompany transactions. Some of these issues were resolved through the Company entering into an agreement with the tax authorities in March 2023 in respect of the pricing of its international transactions. The Company recorded tax expense of approximately \$22.3 million during the year ended December 31, 2023 due to the terms of this agreement. The remaining issues are in the audit phase or are being challenged in the Indian tax courts.

In Italy, the tax authorities have issued notices of assessments to the Company for the years ended December 2016 to December 2019, seeking unpaid taxes, penalties, and interest, concerning our tax position with respect to certain intercompany transactions. We have commenced litigation before the Italian tax courts challenging those assessments and, to date, the Company's position has been upheld, subject to further appeal by the tax authorities.

The Company has recorded a net reserve for uncertain tax positions of \$264.2 million and \$293.6 million, including interest and penalties, in connection with its international audits at June 30, 2026 and December 31, 2025, respectively. In connection with our international tax audits, it is possible that we will incur material losses above the amounts reserved.

The Company's major U.S. state taxing jurisdictions remain open from fiscal year 2015 through 2024, with several state audits currently in progress. The Company's major international taxing jurisdictions remain open from 2013 through 2025.

Accounting for Uncertainty in Income Taxes

The impact of an uncertain tax position that is more likely than not of being sustained upon audit by the relevant taxing authority must be recognized at the largest amount that is more likely than not to be sustained. No portion of an uncertain tax position will be recognized if the position has less than a 50% likelihood of being sustained.

17. Litigation

The Company is involved in various disputes, governmental and/or regulatory inquiries, investigations and proceedings, and litigation matters, both in the U.S. and abroad, that arise from time to time, some of which could result in losses, including damages, fines and/or civil penalties, and/or criminal charges against the Company. These matters are often complex and have outcomes that are difficult to predict.

In addition, in connection with the Combination, the Company has generally assumed liability for, and control of, pending and threatened legal matters relating to the Upjohn Business – including certain matters initiated against Pfizer described below – and has agreed to indemnify Pfizer for liabilities arising out of such assumed legal matters. Pfizer, however, has agreed to retain various matters – including certain specified competition law matters – to the extent they arise from conduct during the pre-Distribution period and has agreed to indemnify the Company for liabilities arising out of such matters.

While the Company believes that it has meritorious defenses with respect to the claims asserted against it and the assumed legal matters referenced above, and intends to vigorously defend its position, the process of resolving these matters is inherently uncertain and may develop over a long period of time, and so it is not possible to predict the ultimate resolution of any such matter. It is possible that an unfavorable resolution of any of the ongoing matters could have a material effect on the Company's business, financial condition, results of operations, cash flows, ability to pay dividends or repurchase shares and/or stock price.

Some of these governmental inquiries, investigations, proceedings and litigation matters with which the Company is involved are described below, and unless otherwise disclosed, the Company is unable to predict the outcome of the matter or to provide an estimate of the range of reasonably possible material losses. The Company records accruals for loss contingencies to the extent we conclude it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. The Company is also involved in other pending proceedings for which, in the opinion of the Company based upon facts and circumstances known at the time, either the likelihood of loss is remote or any reasonably possible loss associated with the resolution of such proceedings is not expected to be material to the Company's business, financial position, results of operations, cash flows, ability to pay dividends or repurchase shares and/or stock price. If and when any reasonably possible losses associated with the resolution of such other pending proceedings, in the opinion of the Company, become material, the Company will disclose such matters.

Legal costs are recorded as incurred and are classified in SG&A in the Company's condensed consolidated statements of operations.

EpiPen® Auto-Injector

In June 2024, the Company received a civil subpoena from the Attorney General of the State of Mississippi seeking information relating to the sales and/or marketing of EpiPen® Auto-Injector. The Company was subsequently contacted by certain other State Attorneys General regarding similar issues, including those that generally relate to issues from EpiPen litigations and/or investigations that have been previously resolved and disclosed. The Company has reached settlements with Mississippi and all of those certain other State Attorneys General. These matters are now closed.

Drug Pricing Matters***Civil Litigation***

Beginning in 2016, the Company, along with other manufacturers, has been named as a defendant in lawsuits filed in the United States and Canada generally alleging anticompetitive conduct with respect to generic drugs. The lawsuits have been filed by plaintiffs that include putative classes of direct purchasers, indirect purchasers, and indirect resellers, as well as individual direct and indirect purchasers and certain cities and counties. The lawsuits allege harm under federal laws and the United States lawsuits also allege harm under state laws, including antitrust laws, state consumer protection laws and unjust enrichment claims. Plaintiffs assert that the Company engaged in individual drug conspiracies with respect to certain products sold by the Company, and in certain lawsuits, plaintiffs assert that the Company engaged in an "overarching conspiracy" with numerous other defendants and seek to impose liability on the Company and the other defendants with respect to all of the alleged products, including products that the individual defendants did not sell. Some of the United States lawsuits also name as defendants the Company's former President, including allegations against him with respect to a single drug product, and one of the Company's former sales employees, including allegations against him with respect to certain generic drugs. The vast

majority of the United States lawsuits have been consolidated in an MDL proceeding in the Eastern District of Pennsylvania (“EDPA”). Plaintiffs generally seek monetary damages, restitution, declaratory and injunctive relief, attorneys’ fees and costs.

The EDPA Court ordered the Clomipramine and Clobetasol direct and indirect purchaser cases to proceed as bellwethers. The Company is named only in the Clomipramine bellwether cases, wherein the EDPA Court certified both direct and indirect purchaser classes. Defendants filed petitions for permission to appeal those class certification decisions, which were granted by the U.S. Court of Appeals for the Third Circuit. These cases have been stayed pending a decision on the defendants’ class certification appeals. Defendants’ summary judgment motions in the direct purchaser case was denied and was largely denied with some narrowing of claims, and potentially reducing claimed damages, in the indirect purchaser case. Plaintiffs are asserting damages of approximately \$350 million in each of the Clomipramine bellwether cases, which are subject to trebling under federal law in the direct purchaser case or multipliers under certain state laws in the indirect purchaser case.

The EDPA Court has selected additional cases to proceed as bellwethers. The Company is named in three of the cases scheduled for trial, which consist of non-class cases filed by direct and indirect purchasers against the Company and other defendants. The first trial is scheduled to begin in September 2026, with subsequent trials scheduled to begin in August 2027 and January 2028. In the case scheduled for trial in September 2026, defendants’ motions for summary judgment are pending. Plaintiff is asserting damages of approximately \$1 billion in that case against defendants, which is subject to trebling under federal law with respect to Plaintiff’s direct purchases and multipliers under certain state laws in connection with its indirect purchases. Plaintiff’s asserted damages, which includes those based on an “overarching conspiracy” claim, are being challenged as part of defendants’ motions for summary judgment.

With respect to the Canadian lawsuit, in February 2026, the Federal Court in Canada denied Plaintiff’s motion for class certification and the case has been dismissed. This matter is now closed.

The Company believes that it acted lawfully, is continuing to defend itself vigorously, and intends to vigorously contest all aspects of the cases, including the asserted damages.

Attorneys General Litigation

On December 21, 2015, the Company received a subpoena and interrogatories from the Connecticut Office of the Attorney General seeking information relating to the marketing, pricing and sale of certain of the Company’s generic products and communications with competitors about such products. On December 14, 2016, attorneys general of certain states filed a complaint in the United States District Court for the District of Connecticut against several generic pharmaceutical drug manufacturers, including the Company, alleging anticompetitive conduct with respect to, among other things, a single drug product. The complaint has subsequently been amended, including on June 18, 2018, to add attorneys general alleging violations of federal and state antitrust laws, as well as violations of various states’ consumer protection laws. This lawsuit was transferred to the aforementioned MDL proceeding in the EDPA and was subsequently transferred back to the U.S. District Court for the District of Connecticut. The operative complaint includes attorneys general of forty-two states, the District of Columbia and the Commonwealth of Puerto Rico. The Company is alleged to have engaged in anticompetitive conduct with respect to four generic drug products sold by the Company as well as an “overarching conspiracy” with respect to the various products asserted in the operative complaint against the Defendants. The amended complaint also includes claims asserted by attorneys general of thirty-two states and the Commonwealth of Puerto Rico against certain individuals, including the Company’s former President, with respect to a single drug product. The operative complaint seeks declaratory and injunctive relief, disgorgement, attorneys’ fees and costs, and certain states seek monetary damages, civil penalties, restitution, and other equitable monetary relief. The states’ claim for disgorgement and restitution under federal law, and certain state law claims brought by certain states, have been dismissed.

On May 10, 2019, certain attorneys general filed a new complaint in the United States District Court for the District of Connecticut against various drug manufacturers and individuals, including the Company and one of its former sales employees, alleging anticompetitive conduct with respect to additional generic drugs sold by the Company as well as an “overarching conspiracy” with respect to the various products asserted in the operative complaint against the Defendants. The complaint was subsequently amended, including on November 22, 2024, to add states as plaintiffs. The operative complaint is brought by attorneys general of forty-four states, certain territories and the District of Columbia. The amended complaint also includes claims asserted by attorneys general of forty states and certain territories against several individuals, including a former Company sales employee. The operative complaint seeks declaratory and injunctive relief, disgorgement, attorneys’ fees and costs, and certain states seek monetary damages, civil penalties, restitution, and other equitable monetary relief. was transferred to the aforementioned MDL proceeding in the EDPA and was subsequently transferred back to the U.S. District Court for the District of Connecticut.

On June 10, 2020, certain attorneys general filed a new complaint in the United States District Court for the District of Connecticut against drug manufacturers, including the Company, and individual defendants (none from the Company), alleging anticompetitive conduct with respect to additional generic drugs sold by the Company as well as an “overarching conspiracy” with respect to the various products asserted in the operative complaint against the Defendants. On September 9, 2021, the complaint was amended, adding an additional state as a plaintiff. The operative complaint is brought by attorneys general of forty-two states, certain territories and the District of Columbia. The states’ claim for disgorgement and restitution under federal law, and certain state law claims brought by certain states, have been dismissed. This lawsuit was transferred to the aforementioned MDL proceeding in the EDPA and was ordered to proceed as a bellwether and was subsequently transferred back to the U.S. District Court for the District of Connecticut. The Company’s motions for summary judgment were largely denied with some of the States’ claims for monetary relief being reduced. Trial is scheduled to begin in February 2027. The states currently seek disgorgement, civil penalties, injunctive relief, and damages under certain state laws, which includes damages against all defendants, based on an “overarching conspiracy” claim, that exceeds \$1 billion and would be subject to multipliers under certain state laws, but the precise scope of the trial remains to be determined.

The Company has accrued approximately \$50.0 million in connection with these matters at June 30, 2026, which is included in *Other Current Liabilities* in the condensed consolidated balance sheets. Although it is reasonably possible that the Company may incur additional losses from these matters, any amount cannot be reasonably estimated at this time. In addition, the Company expects to incur additional legal and other professional service expenses associated with such matters in future periods and will recognize these expenses as services are received. The Company believes that the ultimate amount paid for these services and claims could have a material effect on the Company's business, financial condition, results of operations, cash flows, ability to pay dividends or repurchase shares and/or stock price in future periods.

Securities Related Litigation

On February 14, 2020, the Abu Dhabi Investment Authority (“ADIA”) filed a complaint against Mylan N.V. and Mylan Inc. (collectively for purposes of this paragraph, “Mylan”) in the United States District Court for the Southern District of New York (“SDNY”) alleging that Mylan made false or misleading statements and omissions of purportedly material fact, in violation of federal securities laws, in connection with disclosures relating to the classification of their EpiPen® Auto-Injector as a non-innovator drug for purposes of the Medicaid Drug Rebate Program and allegedly anticompetitive conduct with respect to EpiPen® Auto-Injector and certain generic drugs. ADIA sought monetary damages as well as fees and costs. The Company has resolved this matter and the case has been dismissed.

On June 26, 2020, a putative class action complaint was filed by the Public Employees Retirement System of Mississippi, which was subsequently amended on November 13, 2020, against Mylan N.V., certain of Mylan N.V.’s former directors and officers, and a former officer/director of the Company (collectively for the purposes of this paragraph, the “defendants”) in the U.S. District Court for the Western District of Pennsylvania (“WDPA”) on behalf of certain purchasers of securities of Mylan N.V. (“WDPA Mylan N.V. Class Action Litigation”). The amended complaint included allegations that defendants engaged in a scheme and made false or misleading statements and omissions of purportedly material fact, in violation of federal securities laws, in connection with disclosures relating to the Nashik and Morgantown manufacturing plants and inspections at the plants by the FDA. Plaintiff sought certification of a class of purchasers of Mylan N.V. securities between February 16, 2016 and May 7, 2019. In July 2025, the Court held that Plaintiffs’ misstatements claim as to 1 of the 46 challenged statements, and their scheme claim, may proceed to discovery. The complaint sought monetary damages, as well as the plaintiff’s fees and costs. In February 2026, the Company reached an agreement to pay \$60 million to fully resolve this matter, which has been approved by the court. This matter is now closed.

Beginning in May 2023, putative class action complaints were filed against the Company and certain of the Company’s former officers, directors, and employees in the WDPA on behalf of certain purchasers of securities of the Company. These actions were consolidated and, on October 23, 2023, a consolidated amended putative class action complaint was filed in the WDPA against the Company, and former officers and directors (“WDPA Viatris Class Action Litigation”). The operative complaint alleged that defendants made false or misleading statements and omissions of material fact, in violation of federal securities laws, in connection with disclosures relating to the Company’s projected financial performance and biosimilars business. Plaintiffs sought certification of a class of purchasers of Company securities between March 1, 2021 and February 25, 2022. Plaintiffs sought monetary damages, reasonable costs and expenses, and certain other relief. On September

20, 2024, the Court granted Defendants' motion to dismiss all of Plaintiffs' claims. Plaintiffs' appeals were denied and this case is now closed.

Beginning in August 2023, stockholder derivative actions purportedly on behalf of Viatris were filed in the WDPa against certain of the Company's current and former officers, directors, and employees alleging that defendants failed to ensure that the Company was making truthful and accurate statements in connection with the disclosures alleged in the WDPa Viatris Class Action Litigation. Viatris was named as a nominal defendant in these derivative actions. Certain of the complaints also asserted claims for corporate waste and unjust enrichment. Plaintiffs sought various forms of relief, including damages, disgorgement, restitution, costs and fees. Following the consolidation of their complaints, in April 2026, Plaintiffs dismissed their complaint. These matters are now closed.

In April 2025, a putative class action complaint, which was subsequently amended in September 2025 and March 2026, was filed against the Company and certain of the Company's current and former officers, in the WDPa on behalf of certain purchasers of the Company's securities ("WDPa Indore Class Action Litigation"). The amended complaint alleges that defendants made false or misleading statements or omissions of material fact, in violation of federal securities laws, in connection with disclosures relating to regulatory issues and actions concerning the Company's Indore manufacturing facility. Plaintiffs seek certification of a class of purchasers of Company securities between February 28, 2024 and February 26, 2025. Plaintiffs seek various forms of relief, including damages, costs and fees.

Beginning in November 2025, stockholder derivative actions purportedly on behalf of Viatris have been filed in the WDPa and the U.S. District Court for the District of Delaware against certain of the Company's current and former officers and directors alleging that the defendants failed to ensure that the Company was making truthful and accurate statements in connection with the disclosures alleged in the WDPa Indore Class Action Litigation. Viatris is also named as a nominal defendant in these derivative actions. The complaints assert various claims, including, violations of federal securities laws, as well as claims for breach of fiduciary duty, waste of corporate assets, and unjust enrichment. Plaintiffs seek various forms of relief, including damages, disgorgement, restitution, equitable relief, and costs and fees.

The Company has a total accrual of approximately \$60.0 million related to these matters at June 30, 2026, which is included in *Other Current Liabilities* in the condensed consolidated balance sheets. Although it is reasonably possible that the Company may incur additional losses from these matters, any amount cannot be reasonably estimated at this time. In addition, the Company expects to incur additional legal and other professional service expenses associated with such matters in future periods and will recognize these expenses as services are received. The Company believes that the ultimate amount paid for these services and claims could have a material effect on the Company's business, financial condition, results of operations, cash flows, ability to pay dividends or repurchase shares and/or stock price in future periods.

The Company maintains insurance coverage with respect to these matters. Management has determined that the majority of the losses associated with the WDPa Mylan N.V. Class Action Litigation are covered under existing insurance policies. Accordingly, the Company has recognized an insurance receivable of \$58.0 million within *Accounts Receivable, Net* in the condensed consolidated balance sheets. The recognition of this receivable is based on management's assessment that recovery of these costs is probable.

Opioids

The Company, along with other manufacturers, distributors, pharmacies, pharmacy benefit managers, and individual healthcare providers, is a defendant in cases in the United States and Canada filed by various plaintiffs, including counties, cities and other local governmental entities, asserting civil claims related to sales, marketing and/or distribution practices with respect to prescription opioid products.

The lawsuits generally seek equitable relief and monetary damages (including punitive and/or exemplary damages) based on a variety of legal theories, including various statutory and/or common law claims, such as negligence, public nuisance and unjust enrichment. The vast majority of these lawsuits were consolidated in an MDL in the U.S. District Court for the Northern District Court of Ohio.

In April 2025, the Company reached a nationwide settlement framework to resolve opioid-related claims by States, local governments, and Native American tribes against the Company and certain of its subsidiaries. Under the agreed upon framework, the Company would pay up to a maximum of \$335 million, consisting of annual payments over a nine-year period of between approximately \$27.5 million and \$40 million each, to help support state and local efforts to address opioid-related issues. Following a sign-on period, the settlement framework achieved high levels of participation, including all States and Territories, all litigating Native American Tribes, and the vast majority of litigating local governments. Accordingly, the settlement was finalized, and the cases covered by the settlement have either been dismissed or are in the process of being dismissed. The settlement contains no admission of wrongdoing or liability.

Certain cases not covered by the settlement remain pending, including a small number of actions brought by local governments, actions brought by private hospitals, third party payors, personal injury plaintiffs, and actions brought on behalf of children with Neonatal Abstinence Syndrome due to alleged exposure to opioids. Some of the pending actions are putative class action lawsuits.

The Company has accrued approximately \$281.3 million in connection with these matters at June 30, 2026, which is included in *Other Current Liabilities* and *Other Long-term Obligations* in the condensed consolidated balance sheets. Although it is reasonably possible that the Company may incur additional losses from these matters, any amount cannot be reasonably estimated at this time. In addition, the Company expects to incur additional legal and other professional service expenses associated with such matters in future periods and will recognize these expenses as services are received. The Company believes that the ultimate amount paid for these services and claims could have a material effect on the Company's business, financial condition, results of operations, cash flows, ability to pay dividends or repurchase shares and/or stock price in future periods.

Citalopram

In 2013, the European Commission issued a decision finding that Lundbeck and several generic companies, including Generics [U.K.] Limited (“GUK”), had violated EU competition rules relating to various settlement agreements entered into in 2002 for citalopram. After various appeals, the European Commission’s decision was upheld in March 2021. On March 28, 2023, bodies of the national health authorities in England & Wales filed a case in the U.K. Competition Appeals Tribunal against parties to the citalopram investigation, including GUK, seeking monetary damages, plus interest, purportedly arising from the settlement agreements. GUK, beginning in approximately 2018, has received notices from other health service authorities and insurers asserting an intention to file similar claims. Pursuant to an indemnification agreement, Merck KGaA and GUK have agreed to equally share any damages claimed against Merck KGaA and/or GUK alleged to have been caused by the conduct which is the subject of the European Commission decision.

The Company has accrued approximately €12.1 million as of June 30, 2026 related to this matter. It is reasonably possible that we will incur additional losses above the amount accrued but we cannot estimate a range of such reasonably possible losses at this time. There are no assurances, however, that settlements reached and/or adverse judgments received, if any, will not exceed amounts accrued.

Perindopril

In 2014, the European Commission issued a decision finding that Servier SAS, and certain of its subsidiaries (“Servier”), along with several generic companies, including the Company, had violated EU competition rules relating to various settlement agreements for perindopril. The settlement agreement involving the Company is a 2005 agreement entered into between Servier and Matrix Laboratories Ltd., which the Company acquired in 2007. After various appeals, the European Commission’s decision was upheld in June 2024. The Company satisfied its monetary obligation in 2014.

Bodies of national health authorities in England, Wales, Scotland, and Northern Ireland filed a case in the English High Court against Servier, seeking monetary damages, plus interest, purportedly arising from the settlement agreements. Servier has joined the generic companies, including the Company, as defendants in this litigation. The case has been transferred to the U.K. Competition Appeals Tribunal.

In December 2024, health insurance funds located in the EU filed a case in the Amsterdam District Court against Servier and the generic companies, including the Company, seeking monetary damages, plus interest, purportedly arising from the settlement agreements. In April 2026, the Court dismissed the case against the Company for lack of jurisdiction. Plaintiffs have filed an appeal.

In July 2026, Servier filed a case in the Amsterdam District Court against all of the generic companies, including the Company, seeking contribution from the generic companies in the event Servier pays any damages amounts to Plaintiffs.

Product Liability

Like other pharmaceutical companies, the Company is involved in a number of product liability lawsuits related to alleged personal injuries arising out of certain products manufactured/or distributed by the Company, including but not limited to those discussed below. Plaintiffs in these cases generally seek damages and other relief on various grounds for alleged personal injury and economic loss.

The Company has accrued approximately \$35.7 million as of June 30, 2026 for its product liability matters. It is reasonably possible that we will incur additional losses and fees above the amount accrued but we cannot estimate a range of such reasonably possible losses or legal fees related to these claims at this time. There are no assurances, however, that settlements reached and/or adverse judgments received, if any, will not exceed amounts accrued.

Nitrosamines

The Company, along with numerous other manufacturers, retailers, and others, are parties to litigation relating to alleged trace amounts of nitrosamine impurities in certain products, including valsartan and ranitidine. The vast majority of these lawsuits naming the Company in the United States are pending in two MDLs, namely an MDL pending in the United States District Court for the District of New Jersey concerning valsartan and an MDL pending in the United States District Court for the Southern District of Florida concerning ranitidine. The lawsuits against the Company in the MDLs include putative and certified classes seeking the refund of the purchase price and other economic and punitive damages allegedly sustained by consumers and end payors as well as individuals seeking compensatory and punitive damages for personal injuries allegedly caused by ingestion of the medications. A similar lawsuit pertaining to valsartan is pending in Israel. Third party payor, consumer and medical monitoring classes were certified in the valsartan MDL. The Company has also received requests to indemnify purchasers of the Company's API and/or finished dose forms of these products. The Company has reached an agreement in principle to resolve the valsartan personal injury lawsuits in the U.S.

The original master complaints concerning ranitidine were dismissed on December 31, 2020. The end-payor plaintiff immediately appealed to the U.S. Court of Appeals for the Eleventh Circuit, which affirmed the dismissal. The personal injury and consumer putative class plaintiffs filed amended master complaints. The Company was not named as a defendant in the amended master complaints, though it was still named in certain short form complaints filed by personal injury plaintiffs. The trial court has dismissed all remaining claims against the generic defendants. Certain of the personal injury plaintiffs appealed this dismissal, which remains pending.

Lipitor

A number of individual and multi-plaintiff lawsuits have been filed against Pfizer in various federal and state courts alleging that the plaintiffs developed type 2 diabetes purportedly as a result of the ingestion of Lipitor. Plaintiffs seek compensatory and punitive damages. In February 2014, the federal actions were transferred for consolidated pre-trial proceedings to an MDL in the U.S. District Court for the District of South Carolina. The District Court granted Pfizer's motion for summary judgment and dismissed all of the federal cases in 2017, which was subsequently affirmed on appeal. Since 2016, certain cases in the MDL were remanded to certain state courts. While state court cases remain pending in Missouri and New York, those cases are inactive.

Depo-Provera

Beginning in October 2024, the Company (including Greenstone LLC), Pfizer and certain entities related to Pfizer, and Prasco Labs were named in a number of lawsuits filed in federal and state courts related to claims pertaining to Depo-Provera. Certain of these lawsuits include allegations that individual plaintiffs developed meningiomas purportedly as a result of the ingestion of Depo-Provera or its authorized generic equivalent and seek compensatory and punitive damages. Putative class complaints seeking relief in the form of medical monitoring for individuals from certain states who have taken Depo-Provera or its authorized generic equivalent, but have not developed meningiomas, were also filed. In February 2025, the federal lawsuits were transferred for consolidated pre-trial proceedings to an MDL in the U.S. District Court for the Northern District of Florida. Pfizer is the new drug application holder of Depo-Provera and markets and sells the branded version of the product. Greenstone

LLC was a subsidiary of Pfizer until the closing of the Combination and sold the authorized generic of Depo-Provera until the closing of the Combination. Concurrently with the closing of the Combination, Pfizer divested the authorized generic of Depo-Provera to Prasco Labs. In June 2025, the MDL court implemented a process whereby, with respect to current and future cases filed against the Company in this MDL, Plaintiffs must show why claims against the Company are appropriate. As a result of this process, the Company has been dismissed without prejudice from all cases originally pending in this MDL. The Company has also been dismissed without prejudice in certain state court cases. The Company has sought to tender its defense and is seeking indemnification for these claims from Pfizer pursuant to the Separation and Distribution Agreement and Pfizer is seeking cross-indemnification from the Company pursuant to the Separation and Distribution Agreement with respect to the authorized generic product previously sold by Greenstone LLC.

Intellectual Property

The Company is involved in a number of patent litigation lawsuits involving the validity and/or infringement of patents held by branded pharmaceutical manufacturers. The Company uses its business judgment to decide to market and sell certain products, in each case based on its belief that the applicable patents are invalid and/or that its products do not infringe, notwithstanding the fact that allegations of patent infringement(s) or other potential third party rights have not been finally resolved by the courts. The risk involved in doing so can be substantial because the remedies available to the owner of a patent for infringement may include a reasonable royalty on sales or damages measured by the profits lost by the patent owner. If there is a finding of willful infringement, damages may be increased up to three times. Moreover, because of the discount pricing typically involved with bioequivalent products, patented branded products generally realize a substantially higher profit margin than generic and biosimilar products. The Company also faces challenges to its patents, including suits in various jurisdictions pursuant to which generic drug manufacturers, payers, governments, or other parties are seeking damages for allegedly causing delay of generic entry. An adverse decision in any of these matters could have an adverse effect that is material to our business, financial condition, results of operations, cash flows, ability to pay dividends or repurchase shares and/or stock price.

Dimethyl Fumarate

The Company launched its generic dimethyl fumarate (“DMF”) product in Europe starting in July 2022 after the European Commission concluded that Biogen Netherlands B.V. (“Biogen”) was not entitled to regulatory data exclusivity for Tecfidera®. In December 2023, based on its interpretation of an intervening ruling from the Court of Justice of the European Union (“CJEU”), the European Commission revoked certain generic marketing authorizations for DMF, including the Company’s. The Company challenged the European Commission’s revocation decision before the General Court of the European Union (“GCEU”) and, in February 2026, the GCEU denied the Company’s challenge. The Company has filed an appeal to the CJEU.

Beginning in October 2023, Biogen and certain Biogen affiliated entities filed damages actions in commercial courts of Spain, Belgium, France, Netherlands, Portugal, Germany, Italy, Estonia, Finland and Croatia claiming that the Company’s sales of generic DMF violated Tecfidera’s purportedly restored regulatory exclusivity and these actions are in various stages. Biogen’s purported regulatory exclusivity for Tecfidera expired in February 2024, its patent covering DMF has been revoked, and the Company has secured a new marketing authorization for DMF. Thus, the Company has resumed commercializing DMF in Europe.

Yupelri

Beginning in January 2023, certain generic companies notified us that they had filed ANDAs with the FDA seeking approval to market generic versions of Yupelri® with associated Paragraph IV certifications. Beginning in February 2023, we brought patent infringement actions against the generic filers. The Company has entered into settlement agreements with all of the generic filers, granting them licenses to commercialize their generic versions of Yupelri® in April 2039 or earlier depending on certain circumstances. This matter is now closed.

Tyrvaya

Beginning in June 2023, two generic companies notified Oyster Point that they had filed ANDAs with the FDA seeking approval to market generic versions of Tyrvaya® with associated Paragraph IV certifications. Beginning in July 2023, Oyster Point brought patent infringement actions against the generic filers. The Company has entered into settlement agreements with both of the generic filers, granting them licenses to commercialize their generic versions of Tyrvaya® in October 2034 or earlier depending on certain circumstances. This matter is now closed.

Amitiza

Beginning in September 2023, Sawai Pharmaceutical Co. (“Sawai”) and Towa Pharmaceutical Co. Ltd. (“Towa”) filed challenges with the Japanese Patent Office (“JPO”) asserting invalidity of JP ‘4332353 (“the ‘353 patent”) and its patent term extensions (“PTE”) relevant to Amitiza®, which the Company commercializes in Japan in 24µg and 12µg dosages as a licensee of the relevant patents. The remaining PTE for the ‘353 patent, which was granted based on the approval of the 12µg product, expires in April 2027. In April 2025 and June 2025, the JPO upheld the validity of the ‘353 patent and its PTE. Sawai filed appeals against these JPO decisions with the Intellectual Property High Court which, in April and June 2026, were denied. Sawai has appealed the decision on the validity of the ‘353 patent to the Supreme Court of Japan.

Beginning in April 2024, Sawai filed challenges with the JPO with respect to the 12µg strength, asserting invalidity of PTE of five patents expiring in October 2025, September 2026, August 2027, November 2027, and December 2028, and challenged the validity of the August 2027 patent itself. In January 2026, the JPO upheld the validity of the August 2027 patent. In May 2026, the JPO upheld the validity of the five challenged PTEs. Sawai has appealed the decision on the validity of the PTEs to the Intellectual Property High Court.

In February 2026, Sawai and Towa received regulatory approval for their proposed 24µg products. The Company, beginning in October 2025, commenced actions asserting that Sawai and Towa’s proposed 24ug generic products would infringe the PTEs of four patents. The PTEs, which were granted in connection with the approval of the 12 µg product, expire in September 2026, April 2027, August 2027, and December 2028. Two of the four patents have been asserted against Sawai in Osaka District Court while the remaining two patents have been asserted against Sawai in Tokyo District Court. All four patents have been asserted against Towa in Tokyo District Court. The Company is seeking a finding of infringement and an order prohibiting Sawai and Towa from commercializing their proposed 24µg products until PTE expiration.

In February 2026, the Osaka District Court denied the Company’s request for a preliminary injunction against Sawai and, in March 2026, denied the Company’s infringement action against Sawai relating to the two asserted patents. The Company has appealed the infringement decision to the Intellectual Property High Court. The infringement cases against Sawai and Towa at the Tokyo District Court are pending.

In April 2026, following hearings before the Intellectual Property High Court in the Sawai infringement appeal proceedings, both Sawai and Towa agreed to suspend certain steps required to commercialize their 24 µg products, pending further developments in the legal proceedings. In the event the Company’s infringement position is ultimately unsuccessful, Sawai and Towa maintained their rights to seek to recover damages against the Company.

Ryzumvi

In February 2025, a generic company notified the Company that it had filed an ANDA with the FDA seeking approval to market a generic version of Ryzumvi® with associated Paragraph IV certifications. The generic company asserts the invalidity and/or non-infringement of Orange Book listed patents that have an expiration date of January 31, 2034, and October 25, 2039. In March 2025, the Company brought a patent infringement action against the generic filer in the U.S. District Court for the District of New Jersey. Trial is scheduled for February 2027. This lawsuit automatically stays FDA approval of the generic company’s ANDA until August 3, 2027, or until an adverse court decision, if any, whichever may occur earlier.

The Company has approximately \$3.4 million accrued related to its intellectual property matters at June 30, 2026. It is reasonably possible that we may incur additional losses and fees but we cannot estimate a range of such reasonably possible losses or legal fees related to these claims at this time.

Other Litigation

The Company is involved in various other legal proceedings including commercial, contractual, employment, or other similar matters that are considered normal to its business. The Company has approximately \$9 million accrued related to these various other legal proceedings at June 30, 2026.

Certain Market and Industry Factors

The global pharmaceutical industry is a highly competitive and highly regulated industry. As a result, we face a number of industry-specific factors and challenges, which can significantly impact our results. The following discussion highlights some of these key factors and market conditions.

The process of obtaining regulatory approval to manufacture and market new branded and generic pharmaceutical products is rigorous, time consuming, costly, and inherently unpredictable. Complex generic products are often more difficult, costly and time-consuming to receive regulatory approval and bring to market compared with commodity generic pharmaceutical products. Any delay in regulatory approval could impact the commercial or financial success of a product.

Regulatory approval, if and when obtained, may be limited in scope. Even if regulatory approvals for new products are obtained, the success of those products is dependent upon market acceptance.

Generic products, particularly in the U.S., generally contribute most significantly to revenues and gross margins at the time of their launch, and even more so in periods of market exclusivity, or in periods of limited generic competition. As such, the timing of new product introductions can have a significant impact on the Company's financial results. The entrance into the market of additional competition generally has a negative impact on the volume and pricing of the affected products. Additionally, pricing is often affected by factors outside of the Company's control. Conversely, generic products generally experience less volatility over a longer period of time in Europe as compared to the U.S., primarily due to the role of government oversight of healthcare systems in the region. In addition, U.S. governmental agencies provide funding for certain products in our Emerging Markets region. We expect that any reduction in that funding will have a negative impact on our financial condition, results of operations or cash flows.

For branded products, the majority of the product's commercial value is usually realized during the period in which the product has market exclusivity. In the U.S. and some other countries, when market exclusivity expires and generic versions of a product are approved and marketed, there can often be very substantial and rapid declines in the branded product's sales. For example, generic entry for Amitiza® 24 µg may occur in Japan in December 2026 depending on the outcome of patent litigation.

Certain markets in which we do business outside of the U.S. have undergone government-imposed price reductions, and further government-imposed price reductions are expected in the future. Such measures, along with the tender systems discussed below, are likely to have a negative impact on sales and gross profit in these markets. However, government initiatives in certain markets that appear to favor generic products could help to mitigate this unfavorable effect by increasing rates of generic substitution and penetration.

Additionally, a number of markets in which we operate outside of the U.S. have implemented, or may implement, tender systems for generic pharmaceuticals in an effort to lower prices. Generally speaking, tender systems can have an unfavorable impact on sales and profitability. Under such tender systems, manufacturers submit bids that establish prices for generic pharmaceutical products. Upon winning the tender, the winning company will receive priority placement for a period of time. The tender system often results in companies underbidding one another by proposing lower pricing in order to win the tender. Sales continue to be negatively affected by the impact of tender systems in certain countries.

In addition to the impact of competition, government pricing actions and other measures designed to reduce healthcare costs, our results of operations, cash flows and financial condition could also be affected by other risks of doing business internationally, including the impact of inflation, elections, geopolitical events, including the ongoing conflicts in the Middle East and between Russia and Ukraine and related trade controls, sanctions, supply chain disruptions and staffing challenges and other economic considerations, longer review, response and approval times as a result of evolving regulatory priorities and reductions in personnel at health agencies, the potential for adverse impacts from future tariffs and trade restrictions, foreign currency exchange fluctuations, public health epidemics, changes in intellectual property legal protections and other regulatory changes.

Recent Developments

2026 Restructuring Program

In 2025, the Company initiated an EWSR to enable the Company to build a more focused, efficient and future-ready organization and position the Company for sustained growth beginning in 2026. On February 26, 2026, the Company announced the results of its EWSR, and as a part of the review, committed to and began implementation of certain restructuring activities. These restructuring activities are expected to optimize the Company's commercial capabilities, enabling functions, R&D, medical affairs and regulatory activities, and sourcing, manufacturing and supply chain activities, including inventory optimization. As a result, the Company expects a global workforce reduction of up to approximately 10%. The Company anticipates that these restructuring activities, as well as associated costs and savings, will be completed primarily over the next three years.

The Company expects to record charges for costs associated with the restructuring activities of the EWSR. For the committed restructuring activities, the Company expects to incur total pre-tax charges ranging between \$700 million and \$850 million. Such charges are expected to include between \$50 million and \$100 million of non-cash charges mainly related to accelerated depreciation and asset impairment charges, including inventory write-offs. The remaining estimated cash costs of between \$650 million and \$750 million are expected to be primarily related to severance and employee benefits expense, as well as other costs, including those related to contract terminations, vendor consolidations, product transfer costs and network related simplification and modernization costs. In addition, management believes the potential savings related to these committed restructuring activities will be between \$600 million and \$700 million once fully implemented, with most of these savings expected to improve operating cash flow. During the three and six months ended June 30, 2026, the Company recognized total charges of \$27.3 million and \$105.2 million, respectively, in the condensed consolidated statements of operations related to this restructuring program.

CCPS in Biocon Biologics

In December 2025, the Company entered into definitive agreements with Biocon for the sale of the Company's equity stake in Biocon Biologics. Under the terms of the definitive agreements, Biocon acquired all of Viatris' CCPS in Biocon Biologics for total consideration of \$815.0 million, consisting of \$400.0 million in cash and \$415.0 million in newly issued equity shares of Biocon, which are listed and traded on the National Stock Exchange of India. The transaction closed during the first quarter of 2026 and the equity shares of Biocon were subject to a six-month lock up period. The Company completed the sale of its equity position in Biocon on July 14, 2026 for pre-tax total consideration of approximately \$380 million, and recorded a pre-tax loss of \$27.4 million in the third quarter of 2026. The pre-tax sale proceeds include the impacts of an approximate 2.7% block sale discount to market, transaction fees, and the strengthening of the U.S. dollar since the Company obtained the equity in January 2026. In addition, the terms of the definitive agreements accelerate the expiration of biosimilars non-compete restrictions previously placed on Viatris in 2022 in connection with Viatris' sale of its biosimilars portfolio and related commercial and other capabilities to Biocon Biologics. These restrictions expired immediately at the time of close for all ex-U.S. markets and will expire in November 2026 for the U.S. market. During the three and six months ended June 30, 2026, the Company recognized a (gain)/loss of approximately \$(56.3) million and \$8.6 million, respectively, as a result of changes in the fair value of the Biocon equity shares.

Manufacturing Facilities

Following an inspection by the FDA at our oral finished dose manufacturing facility in Indore, India in 2024, the FDA issued a warning letter and an import alert related to this facility. The import alert affects 11 products that will no longer be accepted into the U.S. until the warning letter is lifted.

Following the substance of FDA's original inspection observations, the Company immediately implemented a comprehensive remediation plan at the site. During 2025, we made substantial progress on our remediation activities at the facility, including but not limited to related personnel actions. Additionally, we have engaged independent third-party subject matter experts to support the remediation plan.

While product continues to be shipped from the Indore facility to markets outside the U.S., as expected, we have also experienced a negative impact in other markets, including the ARV business in Emerging Markets and select generic products in Europe.

We have been in regular communication with the FDA during this process and will continue working to satisfy the FDA that the steps we have taken have resolved all the points raised. Our responses were submitted within the required time periods. The facility will be subject to a reinspection by the FDA. The timing of the reinspection will be determined by the FDA; however, we anticipate that the facility will be ready for reinspection in 2026.

As previously disclosed, in February 2026, a fire occurred in a service area at the Company's oral solid dose manufacturing facility in Nashik, India. Manufacturing at the facility was temporarily suspended.

In May 2026, the FDA inspected the facility and issued Form 483 observations. The Company responded to the Form 483 observations and promptly initiated a comprehensive remediation plan. The Company has also engaged independent third-party subject matter experts to support its remediation plan. Activities under the remediation plan are ongoing and have led to intermittent disruptions at the facility.

While production at the facility has resumed, the temporary manufacturing suspension due to the fire at the facility in February along with these intermittent disruptions are expected to impact product supply in the second half of the year. The Company currently anticipates the impact of product supply disruptions to be between \$100 million and \$150 million to total revenues in the second half of 2026.

During the three and six months ended June 30, 2026, the Company recognized total charges of \$14.9 million and \$86.8 million, respectively, within *Cost of Sales* in the condensed consolidated statements of operations primarily related to the write off of inventory and fixed assets damaged in the fire and incremental manufacturing variances. The Company believes it has certain insurance coverages for these losses, including for assets and business interruption. In the event the plant cannot be returned to sustained normal operations or the Company's insurance coverage is unavailable or inadequate, this event could have a negative impact on our financial position, results of operations and cash flows.

The Company has been impacted by and continues to face potential risks associated with the manufacture and supply of its products (including at its Indore and Nashik manufacturing facilities as discussed above), including temporary facility shutdowns, regulatory inspections, the issuance of observations by government authorities, enforcement actions, including warning letters and import alerts, quality control or compliance issues, and operational disruptions affecting the Company or its third-party contract manufacturers and suppliers. These events have resulted in and may in the future result in delays in production, product launches, interruptions in product supply, increased operating costs, or reduced product availability, which could have a material adverse effect on the Company's business, financial condition, results of operations, cash flows, ability to pay dividends or repurchase shares and/or stock price.

We take oversight of our manufacturing network very seriously. Patient safety is our primary and unwavering focus. We will continue to work closely with our customers to mitigate the effects of potential supply disruptions to meet the needs of the patients we serve.

Share Repurchase Program

On February 28, 2022, the Company announced that its Board of Directors had authorized a share repurchase program for the repurchase of up to \$1.0 billion of the Company's shares of common stock. The Company subsequently announced that on February 26, 2024, its Board of Directors authorized a \$1.0 billion increase to the Company's previously announced \$1.0 billion share repurchase program. As a result, the Company's share repurchase program now authorizes the repurchase of up to \$2.0 billion of the Company's shares of common stock. Such repurchases may be made from time-to-time at the Company's discretion and effected by any means, including but not limited to, open market repurchases, pursuant to plans in accordance with Rules 10b5-1 or 10b-18 under the Exchange Act, privately negotiated transactions (including accelerated stock repurchase programs) or any combination of such methods as the Company deems appropriate. The program does not have an expiration date. The share repurchase program does not obligate the Company to acquire any particular amount of common stock.

During the three and six months ended June 30, 2026, the Company repurchased approximately 9.4 million shares of common stock at a cost of approximately \$150.0 million under the program. A detailed discussion of the Company’s financial results can be found below in the section titled “Results of Operations.” As part of this discussion, we also report sales performance using the non-GAAP financial measures of “constant currency” net sales and total revenues. These measures provide information on the change in net sales and total revenues assuming that foreign currency exchange rates had not changed between the prior and current period. The comparisons presented at constant currency rates reflect comparative local currency sales at the prior year’s foreign exchange rates. We routinely evaluate our net sales and total revenues performance at constant currency so that these results can be viewed without the impact of foreign currency exchange rates, thereby facilitating a period-to-period comparison of our operational activities, and believe that this presentation also provides useful information to investors for the same reason.

More information about non-GAAP measures used by the Company as part of this discussion, including adjusted cost of sales, adjusted gross margins, adjusted EBITDA, adjusted net earnings, and adjusted EPS (all of which are defined below) can be found in “Item 2. *Management’s Discussion and Analysis of Financial Condition and Results of Operations - Use of Non-GAAP Financial Measures.*”

Total Revenues

For the three months ended June 30, 2026, Viatri reported total revenues of \$3.76 billion, compared to \$3.58 billion for the comparable prior year period, representing an increase of \$174.7 million, or 5%. Total revenues include both net sales and other revenues from third parties. Net sales for the current quarter were \$3.75 billion, compared to \$3.57 billion for the comparable prior year period, representing an increase of \$176.9 million, or 5%. Other revenues for the current quarter were \$10.9 million, compared to \$13.1 million for the comparable prior year period.

The favorable impact of foreign currency translation was approximately \$49.2 million, or 1%, primarily reflecting changes in the U.S. Dollar as compared to the currencies of subsidiaries in the EU and China. On a constant currency basis, net sales increased by approximately \$127.7 million, or 4%, for the three months ended June 30, 2026 compared to the prior year period. The increase was the result of new product sales, primarily in Developed Markets, of approximately \$101.0 million, and net base business growth of approximately \$26.7 million, driven by strong net sales in Greater China. New product sales include new products launched in 2026 and the carryover impact of new products, including business development, launched within the last twelve months.

From time to time, a limited number of our products may represent a significant portion of our net sales, gross profit and net earnings. Generally, this is due to the timing of new product introductions, seasonality, and the amount, if any, of additional competition in the market. Our top ten products in terms of net sales, in the aggregate, represented approximately 38% and 37% for the three months ended June 30, 2026 and 2025, respectively.

Net sales are derived from our four reporting segments: Developed Markets, Greater China, JANZ, and Emerging Markets.

Developed Markets Segment

Net sales from Developed Markets increased by \$74.4 million, or 4%, for the three months ended June 30, 2026 when compared to the prior year period. The favorable impact of foreign currency translation was approximately \$30.8 million, or

1%. Constant currency net sales increased by approximately \$43.6 million, or 2%, when compared to the prior year period, driven primarily by new product sales, primarily octreotide acetate in North America, and strong sales of estradiol transdermal systems. This was partially offset by lower net sales of certain existing products, primarily as a result of certain supply constraints in Europe. Net sales within North America totaled approximately \$882.7 million and net sales within Europe totaled approximately \$1.31 billion.

Greater China Segment

Net sales from Greater China increased by \$124.9 million, or 21%, for the three months ended June 30, 2026 when compared to the prior year period. The favorable impact of foreign currency translation was approximately \$28.6 million, or 5%. Constant currency net sales increased by approximately \$96.3 million, or 16%, when compared to the prior year period, primarily driven by strong growth across multiple channels, including e-commerce and retail, driven primarily by increased marketing and selling efforts.

JANZ Segment

Net sales from JANZ decreased by \$9.6 million, or 3%, for the three months ended June 30, 2026 when compared to the prior year period. The decrease was primarily driven by the unfavorable impact of foreign currency translation of approximately \$8.1 million, or 3%. Constant currency net sales decreased by approximately \$1.5 million, or essentially flat, when compared to the prior year period.

Emerging Markets Segment

Net sales from Emerging Markets decreased by \$12.8 million, or 2%, for the three months ended June 30, 2026 when compared to the prior year period. The unfavorable impact of foreign currency translation was approximately \$2.1 million, or less than 1%. Constant currency net sales decreased by \$10.7 million, or 2%, when compared to the prior year period, primarily driven by lower ARV volumes related to continued supply constraints. This decrease was partially offset by higher pricing and volumes of existing products in certain Middle Eastern and Asian countries.

Cost of Sales and Gross Profit

Cost of sales increased from \$2.25 billion for the three months ended June 30, 2025 to \$2.30 billion for the three months ended June 30, 2026. The increase in cost of sales was largely driven by the increase in net sales. Refer to Note 4 *Divestitures* in Part I, Item 1 of this Form 10-Q for more information.

Gross profit for the three months ended June 30, 2026 was \$1.46 billion and gross margins were 39%. For the three months ended June 30, 2025, gross profit was \$1.33 billion and gross margins were 37%. The changes in gross profit and gross margins are primarily driven by product mix. Adjusted gross margins were approximately 57% for the three months ended June 30, 2026, compared to approximately 57% for the three months ended June 30, 2025.

A reconciliation between cost of sales, as reported under U.S. GAAP, and adjusted cost of sales and adjusted gross margin for the three months ended June 30, 2026 compared to the three months ended June 30, 2025 is as follows:

<i>(In millions, except %s)</i>	Three Months Ended June 30,

Adjusted gross profit ^(a)	<u>\$ 2,158.9</u>	<u>\$ 2,028.4</u>

^(a) Adjusted gross profit is calculated as total revenues less adjusted cost of sales. Adjusted gross margin is calculated as adjusted gross profit divided by total revenues.

Operating Expenses

Research and Development Expense

R&D expense for the three months ended June 30, 2026 was \$248.3 million, compared to \$218.8 million for the comparable prior year period, an increase of \$29.5 million. This increase was primarily the result of higher expenses for the selatogrel and cenerimod development programs.

Selling, General and Administrative Expense

SG&A expense for the current quarter was \$1.13 billion, compared to \$928.7 million for the comparable prior year period, an increase of \$205.8 million. The increase was primarily driven by a charge of \$177.8 million related to the planned sale of the product rights for Tyrvaya® (refer to Note 4 *Divestitures* in Part I, Item 1 of this Form 10-Q for more information), and higher non-income related taxes and certain other items.

Litigation Settlements and Other Contingencies, Net

The following table includes the losses/(gains) recognized in litigation settlements and other contingencies, net during the three months ended June 30, 2026 and 2025, respectively:

Interest Expense

Interest expense for the three months ended June 30, 2026 totaled \$120.7 million, compared to \$116.6 million for the three months ended June 30, 2025.

Other (Income) Expense, Net

Other (income) expense, net includes gains and losses from divestitures of businesses, changes in the fair value of equity securities, foreign exchange, expense (income) related to post-employment benefit plans, TSA income, and interest and dividend income. Other (income) expense, net for the three months ended June 30, 2026 totaled \$50.4 million of income, compared to \$333.5 million of expense for the three months ended June 30, 2025, a change of \$383.9 million.

The change was primarily driven by a loss in the prior year period of \$284.0 million as a result of changes in the fair value of the CCPS in Biocon Biologics while the Company recorded a gain of \$56.3 million in the current year period as a result of changes in the fair value of equity shares of Biocon, and a decrease in the loss on divestitures of \$43.8 million. Refer to Note 10 *Financial Instruments and Risk Management* included in Part I, Item 1 of this Form 10-Q for more information with respect to the Biocon equity shares.

Income Tax Provision (Benefit)

For the three months ended June 30, 2026, the Company recognized an income tax provision of \$54.8 million, compared to an income tax benefit of \$(212.5) million for the comparable prior year period, a change of \$267.3 million. The current quarter was negatively impacted by losses in jurisdictions for which minimal benefit can be recognized and accruals for certain international tax matters, partially offset by the release of reserves for uncertain tax positions due to statute of limitations expirations. The benefit in the prior year period was primarily driven by the loss before income taxes. The current quarter and prior quarter provisions were impacted by the levels of income and the changing mix at which it is earned in jurisdictions with differing tax rates.

Cost of Sales and Gross Profit

Cost of sales increased from \$4.34 billion for the six months ended June 30, 2025 to \$4.66 billion for the six months ended June 30, 2026. The increase in cost of sales was largely driven by the increase in net sales, higher restructuring costs, and higher costs associated with other special items, which include certain costs for plants slated for sale or closure or undergoing remediation activities, including \$86.8 million related to the write off of inventory and fixed assets damaged in the fire at the Nashik manufacturing facility and incremental manufacturing variances.

Gross profit for the six months ended June 30, 2026 was \$2.61 billion and gross margins were 36%. For the six months ended June 30, 2025, gross profit was \$2.49 billion and gross margins were 36%. The changes in gross profit and gross margins are primarily related to the increase in net sales and cost of sales discussed above. Adjusted gross margins were approximately 57% for the six months ended June 30, 2026, compared to approximately 56% for the six months ended June 30, 2025.

A reconciliation between cost of sales, as reported under U.S. GAAP, and adjusted cost of sales and adjusted gross margin for the six months ended June 30, 2026 compared to the six months ended June 30, 2025 is as follows:

Operating Expenses

Research and Development Expense

R&D expense for the six months ended June 30, 2026 was \$496.9 million, compared to \$440.8 million for the comparable prior year period, an increase of \$56.1 million. This increase was primarily the result of higher expenses for the selatogrel and cenerimod development programs.

Acquired IPR&D

Acquired IPR&D expense for the six months ended June 30, 2026 was \$0.2 million, compared to \$10.0 million for the comparable prior year period, a decrease of \$9.8 million. The current period expense was related to an upfront payment for a licensing deal, and the prior period expense was related to an upfront licensing payment for rights to cenerimod in Japan, South Korea and certain countries in the Asia-Pacific region.

Selling, General and Administrative Expense

SG&A expense for the six months ended June 30, 2026 was \$2.06 billion, compared to \$1.88 billion for the comparable prior year period, an increase of \$186.5 million. The increase was primarily driven by a charge of \$177.8 million related to the planned sale of the product rights for Tyrvaya®. Refer to Note 4 *Divestitures* in Part I, Item 1 of this Form 10-Q for more information.

Impairment of Goodwill

During the prior year period, the Company recorded a goodwill impairment charge of \$2.94 billion in conjunction with its interim goodwill impairment test performed as of March 31, 2025.

Interest Expense

Interest expense for the six months ended June 30, 2026 totaled \$240.8 million, compared to \$232.1 million for the six months ended June 30, 2025.

Other (Income) Expense, Net

Other (income) expense, net includes gains and losses from divestitures of businesses, changes in the fair value of equity securities, foreign exchange, expense (income) related to post-employment benefit plans, TSA income, and interest and dividend income. Other (income) expense, net for the six months ended June 30, 2026 totaled \$2.9 million of income, compared to \$432.8 million of expense for the six months ended June 30, 2025, a change of \$435.7 million.

The change was primarily driven by a loss in the prior year period of \$399.8 million as a result of changes in the fair value of the CCPS in Biocon Biologics, and a decrease in the loss on divestitures of \$66.8 million. This was partially offset by a loss of \$8.6 million recorded in the current year period as a result of changes in the fair value of equity shares of Biocon. Refer to Note 10 *Financial Instruments and Risk Management* included in Part I, Item 1 of this Form 10-Q for more information with respect to the Biocon equity shares.

Income Tax Benefit

For the six months ended June 30, 2026, the Company recognized an income tax benefit of \$368.9 million, compared to an income tax benefit of \$267.5 million for the comparable prior year period, a change of \$101.4 million. The benefit in the current year period is primarily driven by the loss before income taxes, the tax benefit of certain internal restructurings undertaken, and the release of reserves for uncertain tax positions due to statute of limitations expirations. This benefit was partially offset by losses in jurisdictions for which minimal benefit can be recognized and accruals for certain international tax matters. The benefit in the prior year period is primarily driven by the loss before income taxes, partially offset by the negative impact of the goodwill impairment charge, for which minimal tax benefit was realized, and a \$17.7 million accrual related to the resolution of the previously disclosed Swedish tax matter. The current year and prior year provisions were impacted by the levels of income and the changing mix at which it is earned in jurisdictions with differing tax rates.

Use of Non-GAAP Financial Measures

Whenever the Company uses non-GAAP financial measures, we provide a reconciliation of the non-GAAP financial measures to their most directly comparable U.S. GAAP financial measure. Investors and other readers are encouraged to review the related U.S. GAAP financial measures and the reconciliation of non-GAAP measures to their most directly comparable U.S. GAAP measure and should consider non-GAAP measures only as a supplement to, not as a substitute for or as a superior measure to, measures of financial performance prepared in accordance with U.S. GAAP. Additionally, since these are not measures determined in accordance with U.S. GAAP, non-GAAP financial measures have no standardized meaning across companies, or as prescribed by U.S. GAAP and, therefore, may not be comparable to the calculation of similar measures or measures with the same title used by other companies.

Management uses these measures internally for forecasting, budgeting, measuring its operating performance, and incentive-based awards. Primarily due to acquisitions, divestitures and other significant events which may impact comparability of our periodic operating results, we believe that an evaluation of our ongoing operations (and comparisons of our current operations with historical and future operations) would be difficult if the disclosure of our financial results was limited to financial measures prepared only in accordance with U.S. GAAP. We believe that non-GAAP financial measures are useful supplemental information for our investors and when considered together with our U.S. GAAP financial measures and the reconciliation to the most directly comparable U.S. GAAP financial measure, provide a more complete understanding of the factors and trends affecting our operations. The financial performance of the Company is measured by senior management, in part, using adjusted metrics as described below, along with other performance metrics. The Company's use of such non-GAAP measures is governed by an adjusted reporting policy maintained by the Company and such non-GAAP measures are reviewed in detail with the Audit Committee of the Board of Directors.

Adjusted Cost of Sales and Adjusted Gross Margin

We use the non-GAAP financial measure "adjusted cost of sales" and the corresponding non-GAAP financial measure "adjusted gross margin." The principal items excluded from adjusted cost of sales include restructuring, acquisition and divestiture-related costs, and other special items, purchase accounting amortization and other related items, and share-based compensation expense, which are described in greater detail below.

Adjusted Net Earnings and Adjusted EPS

Adjusted net earnings and adjusted net earnings per diluted share ("adjusted EPS") are non-GAAP financial measures and provide an alternative view of performance used by management. Management believes that, primarily due to acquisitions, divestitures and other significant events, an evaluation of the Company's ongoing operations (and comparisons of its current operations with historical and future operations) would be difficult if the disclosure of its financial results were limited to financial measures prepared only in accordance with U.S. GAAP. Management believes that adjusted net earnings and adjusted EPS are important internal financial metrics related to the ongoing operating performance of the Company, and are therefore useful to investors and that their understanding of our performance is enhanced by these measures. Actual internal and forecasted operating results and annual budgets used by management include adjusted net earnings and adjusted EPS.

EBITDA and Adjusted EBITDA

EBITDA and adjusted EBITDA are non-GAAP financial measures that the Company believes are appropriate to provide additional information to investors to demonstrate the Company's ability to comply with financial debt covenants and assess the Company's ability to incur additional indebtedness. The Company also believes that adjusted EBITDA better focuses management on the Company's underlying operational results and true business performance and is used, in part, for management's incentive compensation. We calculate EBITDA as U.S. GAAP net earnings (loss) adjusted for income tax provision (benefit), interest expense and depreciation and amortization. EBITDA is further adjusted for share-based compensation expense, litigation settlements and other contingencies, net, gain (loss) on divestitures of businesses, impairment of long-lived assets and goodwill, restructuring, acquisition and divestiture-related and other special items to determine adjusted EBITDA. These adjustments are generally permitted under our credit agreement in calculating adjusted EBITDA for determining compliance with our debt covenants.

The significant items excluded from adjusted cost of sales, adjusted EBITDA, adjusted net earnings, and adjusted EPS include:

Purchase Accounting Amortization and Other Related Items

The ongoing impact of certain amounts recorded in connection with acquisitions of both businesses and assets is excluded from adjusted cost of sales, adjusted EBITDA, adjusted net earnings, and adjusted EPS. These amounts include the amortization of intangible assets, inventory step-up, property, plant and equipment step-up, intangible asset impairment charges, including for IPR&D, and impairment of goodwill. For the acquisition of businesses accounted for under the provisions of *ASC 805, Business Combinations*, these purchase accounting impacts are excluded regardless of the financing method used for the acquisitions, including the use of cash, long-term debt, the issuance of common stock, contingent consideration or any combination thereof.

Fair Value Adjustments, Including Contingent Consideration

The impact of changes to the fair value of assets and liabilities, including contingent and deferred consideration and non-marketable equity investments, and the related accretion income or expense are excluded from adjusted EBITDA, adjusted net earnings, and adjusted EPS because they are not indicative of the Company's ongoing operations due to the variability of the amounts and the lack of predictability as to the occurrence and/or timing and management believes their exclusion is helpful to understanding the underlying, ongoing operational performance of the business.

Share-based Compensation Expense

Share-based compensation expense is excluded from adjusted cost of sales, adjusted EBITDA, adjusted net earnings, and adjusted EPS. Our share-based compensation programs have become increasingly weighted toward performance-based compensation, which leads to variability and to a lack of predictability as to the occurrence and/or timing of amounts incurred. As such, management believes the exclusion of such amounts on an ongoing basis is helpful to understanding the underlying operational performance of the business.

Restructuring, Acquisition and Divestiture-Related Costs and Other Special Items

Costs related to restructuring, acquisition and divestiture-related activities and other actions are excluded from adjusted cost of sales, adjusted EBITDA, adjusted net earnings, and adjusted EPS, as applicable. These amounts include items such as:

- Costs related to formal restructuring programs and actions, including costs associated with facilities to be closed or divested, employee separation costs, impairment charges, accelerated depreciation, incremental manufacturing variances, equipment relocation costs, decommissioning and other restructuring related costs;
- Certain acquisition and divestiture costs, including costs relating to integration and planning, contractual obligations, including under supply agreements, advisory and legal fees, certain financing related costs, certain reimbursements related to the Company's obligation to reimburse Pfizer for certain financing and transaction related costs under the Business Combination Agreement and Separation and Distribution Agreement, certain other TSA related set-up and exit costs, and other business transformation and/or optimization initiatives, which are not part of a formal restructuring program, including employee separation and post-employment costs;

- Other costs, incurred from time to time, related to certain special events or activities that lead to gains or losses, including, but not limited to, incremental manufacturing variances, contractual termination costs, certain remediation activities, asset write-downs, including other-than-temporary impairments of investments in equity or debt instruments, or liability adjustments;
- Certain costs to further develop and optimize our global enterprise resource planning systems, operations and supply chain;
- Gains or losses from divestitures, including impairments of held for sale assets; and
- The impact of changes related to uncertain tax positions are excluded from adjusted net earnings and adjusted EPS. In addition, tax adjustments to adjusted earnings are recorded to present items on an after-tax basis consistent with the presentation of adjusted net earnings and adjusted EPS.

The Company has undertaken restructurings and other optimization initiatives of differing types, scope and amount during the covered periods and, therefore, these charges should not be considered non-recurring; however, management excludes these amounts from adjusted cost of sales, adjusted EBITDA, adjusted net earnings, and adjusted EPS because it believes it is helpful to understanding the underlying, ongoing operational performance of the business.

Litigation Settlements, Net

Charges and gains related to legal matters, such as those discussed in Note 17 *Litigation* included in Part I, Item 1 of this Form 10-Q are generally excluded from adjusted EBITDA, adjusted net earnings, and adjusted EPS. Normal, ongoing defense costs of the Company made in the normal course of our business are not excluded.

Liquidity and Capital Resources

Our primary source of liquidity is net cash provided by operating activities, which was \$770.1 million for the six months ended June 30, 2026. We believe that net cash provided by operating activities and available liquidity will continue to allow us to meet our needs for working capital, capital expenditures, interest and principal payments on debt obligations, dividend payments, and share repurchases. Nevertheless, our ability to satisfy our working capital requirements and debt service obligations, and fund planned capital expenditures, share repurchases, or dividend payments, will substantially depend upon our future operating performance (which will be affected by prevailing economic conditions), and financial, business and other factors, some of which are beyond our control.

Operating Activities

Net cash provided by operating activities increased by \$14.9 million to \$770.1 million for the six months ended June 30, 2026, as compared to net cash provided by operating activities of \$755.2 million for the six months ended June 30, 2025. Net cash provided by operating activities is derived from net (loss) earnings adjusted for non-cash operating items, including changes in the fair value of the Biocon equity shares, gains and losses attributed to investing and financing activities and changes in operating assets and liabilities resulting from timing differences between the receipts and payments of cash, including changes in cash primarily reflecting the timing of cash collections from customers, payments to vendors and employees and tax payments in the ordinary course of business.

The increase in net cash provided by operating activities was principally due to higher operating earnings.

Investing Activities

Net cash from investing activities was \$225.8 million for the six months ended June 30, 2026, as compared to net cash used in investing activities of \$117.6 million for the six months ended June 30, 2025, an increase of \$343.4 million.

In 2026, significant items in investing activities included the following:

- cash proceeds from the CCPS settlement of \$400.0 million; and
- capital expenditures, primarily for equipment and facilities, totaling approximately \$92.7 million. While there can be no assurance that current expectations will be realized, capital expenditures for the 2026 calendar year are expected to be approximately \$350 million to \$450 million.

In 2025, significant items in investing activities included the following:

- capital expenditures, primarily for equipment and facilities, totaling approximately \$95.5 million.

Financing Activities

Net cash used in financing activities was \$1.45 billion for the six months ended June 30, 2026, as compared to \$829.4 million for the six months ended June 30, 2025, an increase of \$617.0 million.

In 2026, significant items in financing activities included the following:

- repayment of the 3.950% Senior Notes due 2026 at maturity of approximately \$1.675 billion;
- borrowings and repayments under the 2024 Revolving Facility of \$550 million;
- proceeds from issuance of 4.250% Euro Senior Notes due 2033 of approximately \$752.8 million;
- share repurchases of \$150.0 million; and
- cash dividends paid of \$279.4 million.

In 2025, significant items in financing activities included the following:

- share repurchases of \$350.4 million;
- cash dividends paid of \$283.1 million; and
- net cash of \$153.7 million paid on behalf of other partners, which is included in Other items, net.

Capital Resources

Our cash and cash equivalents totaled \$886.5 million at June 30, 2026. The majority of our cash is invested in U.S. government money market funds and in bank deposits. In order to support our global operations, we maintain significant cash and cash equivalents within the global banking system with the majority of this at Global Systemically Important Banks. We monitor the third-party depository institutions that hold our cash and cash equivalents on a regular basis. Our primary emphasis is on the safety of the principal. Where possible, we diversify our cash and cash equivalents among counterparties to minimize exposure to any one counterparty. The Company anticipates having sufficient liquidity, including existing borrowing capacity under the 2024 Revolving Facility, Commercial Paper Program, and Receivables Facility combined with cash to be generated from operations, to fund foreseeable cash needs without requiring the repatriation of non-U.S. cash. Should we determine the need to repatriate or convert cash held in countries that have significant restrictions or controls in place, including in China, we may be unable to repatriate or convert such cash, or be unable to do so without incurring substantial costs.

The Company has access to \$3.5 billion under the 2024 Revolving Facility which matures in September 2029. Up to \$1.65 billion of the 2024 Revolving Facility may be used to support borrowings under our Commercial Paper Program. As of June 30, 2026, the Company did not have any borrowings outstanding under the Commercial Paper Program or the 2024 Revolving Facility.

The Company has a Receivables Facility for up to an aggregate amount of \$600 million which expires in April 2028. As of June 30, 2026, the Company did not have any borrowings outstanding under the Receivables Facility.

Under the terms of the Receivables Facility, certain of our accounts receivable secure the amounts borrowed and cannot be used to pay our other debts or liabilities. The amount that we may borrow at a given point in time is determined based on the amount of qualifying accounts receivable that are present at such point in time. Borrowings outstanding under the Receivables Facility bear interest at the applicable base rates plus applicable margins and are included as a component of short-term borrowings, while the accounts receivable securing these obligations remain as a component of accounts receivable, net, in

our condensed consolidated balance sheets. In addition, the agreement governing the Receivables Facility contains various customary affirmative and negative covenants, and customary default and termination provisions.

We have entered into accounts receivable factoring agreements with financial institutions to sell certain of our non-U.S. accounts receivable. These transactions are accounted for as sales and result in a reduction in accounts receivable because the agreements transfer effective control over and risk related to the receivables to the buyers. Our factoring agreements do not allow for recourse in the event of uncollectibility, and we do not retain any interest in the underlying accounts receivable once sold. We derecognized \$250.6 million and \$301.9 million of accounts receivable as of June 30, 2026 and December 31, 2025, respectively, under these factoring arrangements. Additionally, we have a similar arrangement for certain European countries. As of June 30, 2026, we assigned and derecognized approximately \$84.0 million of *Trade Receivables, Net*, which were included in *Other Receivables*. As of December 31, 2025, no amounts were assigned and derecognized.

We are continuously evaluating the potential acquisition of products, as well as companies, as a strategic part of our future growth. Consequently, we may utilize current cash reserves or incur additional indebtedness to finance any such acquisitions, which could impact future liquidity. Also, on an ongoing basis, we review our operations, including the evaluation of potential divestitures of products and businesses, as part of our future strategy. Any divestitures could impact future liquidity. In addition, we plan to continue to explore various other ways to unlock the value of the Company's unique global platform in order to create shareholder value.

For information regarding our dividends paid and declared and share repurchase program, refer to Note 8 *(Loss) Earnings per Share* included in Part I, Item 1 of this Form 10-Q.

Long-term Debt Maturity

For information regarding our debt agreements and mandatory minimum repayments remaining on the outstanding notional amount of long-term debt at June 30, 2026, refer to Note 11 *Debt* included in Part I, Item 1 of this Form 10-Q.

The YEN Term Loan Facility and the 2024 Revolving Facility contain customary affirmative covenants for facilities of this type, including among others, covenants pertaining to the delivery of financial statements, notices of default and certain material events, maintenance of corporate existence and rights, property, and insurance and compliance with laws, as well as customary negative covenants for facilities of this type, including a financial covenant, which set the Maximum Leverage Ratio as of the end of any quarter at 3.75 to 1.00, except in circumstances as defined in the related credit agreement, and other limitations on the incurrence of subsidiary indebtedness, liens, mergers and certain other fundamental changes, investments and loans, acquisitions, transactions with affiliates, payments of dividends and other restricted payments and changes in our lines of business.

The Company is in compliance with its covenants at June 30, 2026 and expects to remain in compliance for the next twelve months.

We and our subsidiaries and affiliates may from time to time, in our sole discretion, purchase, repay, redeem or retire any of our outstanding debt securities (including any publicly-issued debt securities) in privately negotiated or open market transactions, by tender offer or otherwise, or extend or refinance any of our outstanding indebtedness.

Other Commitments

The Company is involved in various disputes, governmental and/or regulatory inquiries, investigations and proceedings, tax proceedings and litigation matters, both in the U.S. and abroad, that arise from time to time, some of which could result in losses, including damages, fines and/or civil penalties, and/or criminal charges against the Company. These matters are often complex and have outcomes that are difficult to predict. We have approximately \$453 million accrued for legal contingencies at June 30, 2026.

While the Company believes that it has meritorious defenses with respect to the claims asserted against it and the assumed legal matters referenced above, and intends to vigorously defend its position, the process of resolving these matters is inherently uncertain and may develop over a long period of time, and so it is not possible to predict the ultimate resolution of any such matter. It is possible that an unfavorable resolution of any of the ongoing matters could have a material effect on the Company's business, financial condition, results of operations, cash flows, ability to pay dividends or repurchase shares, and/or stock price.

In connection with the divestitures, Viatrix and the respective buyers currently have manufacturing and supply agreements pursuant to which the Company is providing services to the respective purchasers, substantially the same as we previously provided to the related businesses, generally for periods between one to 10 years depending on the geographic market and the products subject to such agreement, subject to potential extensions in certain circumstances. In connection with the API business divestiture, we currently have a manufacturing and supply agreement pursuant to which we are purchasing a significant amount of API from the purchaser in that transaction. Some of these agreements include various ongoing financial obligations.

In the normal course of business, Viatrix periodically enters into acquisition, divestiture, collaboration, employment, legal settlement and other agreements which include indemnification provisions. The maximum amount to which Viatrix may be exposed under such agreements cannot be reasonably estimated due to the conditional nature of the Company's obligations and the unique facts and circumstances involved in each particular agreement. Historically, we have not paid material amounts under these indemnification provisions. Further, for certain agreements, the Company maintains insurance coverage which management believes will effectively mitigate the Company's obligations under these indemnification provisions.

In connection with the Combination, the Company has generally assumed liability for, and control of, pending and threatened legal matters relating to the Upjohn Business and has agreed to indemnify Pfizer for liabilities arising out of such assumed legal matters. Pfizer, however, has agreed to retain various matters—including certain specified competition law matters—to the extent they arise from conduct during the pre-Distribution period and has agreed to indemnify the Company for liabilities arising out of such matters. If Pfizer were to successfully dispute its retention of these matters, or if there is an adverse outcome in the matters that Pfizer has agreed to retain, this could have an adverse impact on Viatrix. In addition, Viatrix agreed to pay Pfizer an amount equal to 57% of any losses actually incurred or suffered by Viatrix, its predecessors or subsidiaries, since July 29, 2019, arising out of third-party actions relating to the manufacture, distribution, marketing, promotion or sale of opioids by or on behalf of Viatrix, its predecessors or subsidiaries. In June 2026, the Company received a letter from Pfizer inquiring about the Company's plan for payment to Pfizer under the foregoing agreement. The Company disagrees that the payment Pfizer requests is owed. Any loss to the Company as a result of the foregoing disagreement could have an adverse impact on Viatrix.

ITEM 3. **QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

For a discussion of the Company's market risk, see "Item 7A. Quantitative and Qualitative Disclosures about Market Risk" in Viatri's 2025 Form 10-K.

ITEM 4. **CONTROLS AND PROCEDURES**

An evaluation was performed under the supervision and with the participation of the Company's management, including the Principal Executive Officer and the Principal Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of June 30, 2026. Based upon that evaluation, the Principal Executive Officer and the Principal Financial Officer concluded that the Company's disclosure controls and procedures were effective.

Management has not identified any changes in the Company's internal control over financial reporting ("ICFR") that occurred during the second quarter of 2026 that have materially affected, or are reasonably likely to materially affect, the Company's ICFR.

SEPARATION AGREEMENT AND RELEASE

This Separation Agreement and Release (“Agreement”) is made by and between Theodora (Doretta) Mistras (“Executive”) and Viatriis Inc. (together with its affiliates, the “Company”) (collectively referred to as the “Parties” or individually referred to as a “Party”).

RECITALS

WHEREAS, Executive has voluntarily resigned as Chief Financial Officer of the Company, shall cease to serve in that position effective as of May 8, 2026 and shall separate from employment by the Company effective as of May 22, 2026 (the “Separation Date”); and

WHEREAS, the Company and Executive wish to set forth the terms of such separation from employment by the Company.

NOW, THEREFORE, in consideration of the mutual promises made herein and intending to be legally bound hereby, the Company and Executive hereby agree as follows:

COVENANTS

1. Separation from Employment and Certain Company Positions. Effective as May 8, 2026, Executive hereby resigns from all positions as an executive, officer or director of the Company or any of its affiliated entities. From May 8, 2026 through the Separation Date, Executive shall serve as an at-will employee of the Company and shall provide transitional services as reasonably requested by the Company. Executive acknowledges and agrees that her separation from the Company is not due to any disagreement with the Company on any matter relating to the operations, policies, controls, practices or any other activities of the Company.

2. Compensation and Benefits.

a. Pro Rata Annual Incentive Payment for 2026. Provided that Executive executes this Agreement, complies with its terms and does not commit a material breach of this Agreement, as described in Section 13 below, Executive shall be entitled to a pro rata annual incentive payment for 2026 based on days of active service from January 1 up through and including the Separation Date, based on actual Company performance (as determined by the Compensation Committee of the Board of Directors of the Company and as applied to other executive officers of the Company, provided that Company performance for purposes of the calculation of Executive’s annual incentive payment shall not exceed target level performance and Executive shall not receive any amount(s) in excess of such target level performance), with such pro rata annual incentive payment, if any, to be determined and paid in the first quarter of 2027 pursuant to standard Company practices.

b. Treatment of Equity-Based Awards. All time-based restricted stock units and performance-based restricted stock units shall be forfeited immediately upon the Separation Date.

c. 401(k) Restoration Plan and Income Deferral Plan. Executive shall be paid the accrued and vested benefit under the Company’s 401(k) Restoration Plan and Income Deferral Plan in a lump sum on the first regularly scheduled Company payroll date occurring after the six-month anniversary of the Separation Date. As of the Separation Date, none of

Executive's balance in such plans will be vested under the terms of the plans and, therefore, any balances shall be forfeited.

d. Vacation Pay. The Company shall pay Executive for all unused and accrued vacation time as of the Separation Date, less applicable deductions and withholdings required by applicable law. This payment shall be made in a lump sum and shall be paid on the Company's next regularly scheduled payroll date after the Separation Date.

e. Other Benefits. Executive's participation in all other benefits and incidents of employment, including, but not limited to, the accrual of bonuses, vacation and paid time off, and any additional 401(k) plan contributions, shall cease as of the Separation Date. Vested amounts payable to Executive under the Company's 401(k) and other retirement plans or agreements shall be paid in accordance with the terms of such plans and agreements and applicable law. All payments hereunder shall be subject to applicable deductions and withholdings as required by applicable law.

3. Payment of Salary and Receipt of All Benefits. Executive acknowledges and represents that, other than the consideration to be paid pursuant to this Agreement, Executive's final regular pay on the Company's next regularly scheduled payroll date after the Separation Date and payment for all unused and accrued vacation time as of the Separation Date (which shall be included in Executive's final regular pay on the Company's next regularly scheduled payroll date after the Separation Date, subject to applicable deductions and withholding), the Company has paid or provided all salary, wages, bonuses, accrued vacation/paid time off, premiums, leaves, reimbursable expenses, stock, vesting, shares pursuant to vested restricted stock units, and any and all other benefits and compensation due to Executive by the Company and its affiliates. To receive reimbursement for any final Company-related travel expenses, Executive must submit a final report of all such outstanding expenses within thirty (30) calendar days after the Separation Date, accompanied by receipts and otherwise subject to the Company's expense reimbursement policy.

4. General Release of Claims. In consideration of the pro rata bonus payment eligibility and potential payment granted to Executive under Section 2(a) of this Agreement, which Executive acknowledges she would not otherwise be entitled to receive, Executive agrees that the foregoing consideration represents settlement in full of all outstanding obligations owed to Executive by the Company and its current and former officers, directors, employees, agents, investors, attorneys, shareholders, administrators, affiliates, direct and indirect parents and subsidiaries, benefit plans, plan administrators, insurers, trustees, divisions and subsidiaries, predecessor and successor corporations and assigns, and all persons acting with or on behalf of them (collectively, the "Releasees"). Executive, on Executive's own behalf and on behalf of Executive's heirs, family members, executors, agents and assigns, hereby and forever releases and discharges the Releasees from any and all claims, complaints, charges, duties, obligations, demands or causes of action relating to any matters of any kind, whether presently known or unknown, suspected or unsuspected, that Executive may possess against any of the Releasees arising from any omissions, acts, failures to act, facts or damages that have occurred up until and including the date Executive executes this Agreement, including, without limitation:

a. any and all claims relating to or arising from Executive's employment relationship with the Company and/or any of the Releasees and the termination of that relationship;

b. any and all claims relating to, or arising from, Executive's right to purchase, or actual purchase of shares of stock of the Company and/or any of the Releasees, including, without limitation, any claims for fraud, misrepresentation, breach of fiduciary duty,

breach of duty under applicable state corporate law, and securities fraud under any state or federal law;

c. any and all claims for wrongful discharge of employment; termination in violation of public policy; discrimination; harassment; retaliation; breach of contract, both express and implied; breach of covenant of good faith and fair dealing, both express and implied; promissory estoppel; negligent or intentional infliction of emotional distress; fraud; negligent or intentional misrepresentation; negligent or intentional interference with contract or prospective economic advantage; unfair business practices; defamation; libel; slander; negligence; personal injury; assault; battery; invasion of privacy; false imprisonment; conversion; and disability benefits;

d. any and all claims under any policy, agreement, understanding or promise, written or oral, formal or informal, between any Releasee and Executive existing as of the date hereof (whether or not known or arising before, on or after the date Executive executes this Agreement);

e. any and all claims for violation of any federal, state or municipal statute, including, but not limited to, Title VII of the Civil Rights Act of 1964; the Civil Rights Act of 1991; the Rehabilitation Act of 1973; the Americans with Disabilities Act of 1990; the Equal Pay Act; the Fair Labor Standards Act; the Fair Credit Reporting Act; the Age Discrimination in Employment Act of 1967 ("ADEA"); the Older Workers Benefit Protection Act; the Employee Retirement Income Security Act of 1974; the Worker Adjustment and Retraining Notification Act; the Family and Medical Leave Act; the Sarbanes-Oxley Act of 2002; the laws and Constitution of the Commonwealth of Pennsylvania, each as amended, or any other federal, state or local law, regulation, ordinance or common law;

f. any and all claims for violation of the federal or any state constitution;

g. any and all claims arising out of any other laws and regulations relating to employment or employment discrimination;

h. any claim for any loss, cost, damage, or expense arising out of any dispute over the non-withholding or other tax treatment of any of the proceeds received by Executive as a result of this Agreement;

i. any and all claims for attorneys' fees and costs; and

j. any other claims whatsoever.

Executive agrees that the Release set forth in this section shall be and remain in effect in all respects as a complete general release as to the matters released. This Release does not extend to any obligations incurred under this Agreement or any indemnification agreement between Executive and the Company or other indemnification rights of Executive, any claims accruing after the execution of this Agreement, or any rights Executive may have under any D&O insurance policy maintained by the Company and/or any of the Releasees. This Release does not release claims to enforce the terms of this Agreement (including but not limited to the payments and benefits set forth in Section 2 of this Agreement), and does not release claims that cannot be released as a matter of law, including, but not limited to, Executive's right to file a charge with or participate in a charge by, the Equal Employment Opportunity Commission, or any other local, state or federal administrative body or government agency that is authorized to enforce or administer laws related to employment, against the Company (with the understanding that any such filing or participation does not give Executive the right to recover any monetary damages against the Company and/or any of the Releasees); and Executive's release of claims herein bars

Executive from recovering such monetary relief from the Company and/or any of the Releasees. Executive represents that Executive has made no assignment or transfer of any right, claim, complaint, charge, duty, obligation, demand, cause of action or other matter waived or released by this Section 4.

Executive agrees that the consideration set forth in this Agreement is subject to Executive's execution, not later than 21 days following the Separation Date, of this Release, and the non-revocation of the Release during the period specified therein. If Executive fails to execute and deliver the Release within 21 days following the Separation Date, or if Executive revokes the Release as provided therein, Executive shall forfeit her right to receive the benefit provided under Section 2(a) of this Agreement. In the event Executive signs this Agreement prior to the Separation Date, she will be required to execute an affirmation of the Release upon her Separation Date in the form attached as Exhibit A.

5. Acknowledgment that Waiver of Claims is Knowing and Voluntary. Executive acknowledges that Executive is waiving and releasing any rights Executive may have under the ADEA and that the waiver and release is knowing and voluntary. Executive agrees that this waiver and release does not apply to any rights or claims that may arise under the ADEA after the date Executive executes this Agreement. Executive acknowledges that the consideration given for this waiver and release is in addition to anything of value to which Executive was already entitled. Executive further acknowledges that Executive has been advised by this writing that: (a) Executive should consult with an attorney prior to executing this Agreement; (b) nothing in this Agreement prevents or precludes Executive from challenging or seeking a determination in good faith of the validity of this waiver under the ADEA, nor does it impose any condition precedent, penalties or costs for doing so, unless specifically authorized by federal law; (c) Executive has seven (7) days following the execution of this Release to revoke this Release and may do so by writing to the Company's Chief Legal Officer; (d) this Release shall not be effective until after the revocation period has expired without revocation; and (e) nothing in this Release prevents or precludes Executive from challenging or seeking a determination in good faith of the validity of this waiver under the ADEA, nor does it impose any condition precedent, penalties or costs for doing so, unless specifically authorized by federal law. In the event Executive signs this Release and returns it to the Company in less than the 21-day period identified above, Executive hereby acknowledges that Executive has freely and voluntarily chosen to waive the time period allotted for considering this Release.

6. Unknown Claims. Executive acknowledges that Executive has been advised to consult with legal counsel and that Executive is familiar with the principle that a general release does not extend to claims that the releaser does not know or suspect to exist in Executive's favor at the time of executing the release, which, if known by Executive, must have materially affected Executive's settlement with the Releasee. Executive, being aware of said principle, agrees to expressly waive any rights Executive may have to that effect, as well as under any other statute or common law principles of similar effect.

7. No Pending or Future Lawsuits. Executive represents that Executive has no lawsuits, claims, or actions pending (directly or indirectly) in Executive's name, or on behalf of any other person or entity, against the Company or any of the other Releasees. Executive also represents that Executive does not intend to bring any claims (directly or indirectly) on Executive's own behalf or on behalf of any other person or entity against the Company or any of the other Releasees.

8. Confidentiality. Executive reaffirms and agrees to observe and abide by the "Agreement Relating to Patents, Copyrights, Inventions, Confidentiality and Proprietary Information" entered into between Executive and the Company and any and all amendments and supplements thereto (the "Confidentiality Agreement"). For the avoidance of doubt,

Confidential Information thereunder includes, without limitation, information or materials regarding the Company's plans, strategies, governance or operations, deliberations, including any discussions or deliberations relating thereto.

9. Non-Competition and Non-Solicitation. Executive agrees that for a period ending one (1) year after the Separation Date:

a. Executive shall not, directly or indirectly, whether for herself or for any other person, company, corporation or other entity be or become associated in any way (including but not limited to the association set forth in (i)-(vii) of this subsection) with any business or organization which is directly or indirectly engaged in the research, development, manufacture, production, marketing, promotion or sale of any product the same as or similar to those of the Company, or which competes or intends to compete in any line of business with the Company. Notwithstanding the foregoing, Executive may during the period in which this paragraph is in effect own stock or other interests in corporations or other entities that engage in businesses the same or substantially similar to those engaged in by the Company; provided that Executive does not, directly or indirectly (including without limitation as the result of ownership or control of another corporation or other entity), individually or as part of a group (as that term is defined in Section 13(d) of the Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated thereunder) (i) control or have the ability to control the corporation or other entity; (ii) provide to the corporation or entity, whether as an executive, consultant or otherwise, advice or consultation; (iii) provide to the corporation or entity any confidential or proprietary information regarding the Company or its businesses or regarding the conduct of businesses similar to those of the Company; (iv) hold or have the right by contract or arrangement or understanding with other parties to hold a position on the board of directors or other governing body of the corporation or entity or have the right by contract or arrangement or understanding with other parties to elect one or more persons to any such position; (v) hold a position as an officer of the corporation or entity; (vi) have the purpose to change or influence the control of the corporation or entity (other than solely by the voting of her shares or ownership interest); or (vii) have a business or other relationship, by contract or otherwise, with the corporation or entity other than as a passive investor in it; provided, however, that Executive may vote her shares or ownership interest in such manner as she chooses provided that such action does not otherwise violate the prohibitions set forth in this sentence.

b. Executive will not, either directly or indirectly, either for herself or for any other person, partnership, firm, company, corporation or other entity, contact, solicit, divert or take away any of the customers or suppliers of the Company.

c. Executive will not solicit, entice or otherwise induce any employee of the Company to leave the employ of the Company for any reason whatsoever; nor will Executive directly or indirectly aid, assist or abet any other person or entity in soliciting or hiring any employee of the Company, nor will Executive otherwise interfere with any contractual or other business relationships between the Company and its employees.

10. Trade Secrets and Confidential Information/Company Property/Inquiries. Executive's signature below constitutes Executive's representation that as of the Separation Date, Executive shall (a) remove from any and all devices, records, files, folders, cameras, media, internet sites, electronic or digital devices, and any and all other sources, all documents, tapes, photographs, recordings, images, reproductions, electronic files and other items provided to Executive by the Company and/or any of the Releasees, developed or obtained by Executive in connection with Executive's employment with the Company, or otherwise belonging to the Company and/or any of the Releasees, and (b) return all documents, tapes, photographs, recordings, images, reproductions, electronic files and other items provided to Executive by the Company, developed or obtained by Executive in connection with Executive's employment with

the Company, or otherwise belonging to the Company, including but not limited to any personal computer(s), BlackBerry, iPhone, iPad, tapes, photographs, recordings, images, reproductions, electronic files and other items. Executive further represents that Executive shall not misuse or disclose any of the Company's and/or any of the Releasees' confidential, proprietary or trade secret information to any third party other than good faith disclosure to a law enforcement or authorized regulatory agency of the United States Government or any state or local government. In addition, Executive shall abide by the Company's external communication policy, such that in the event Executive receives any media, financial community or other third-party inquiries regarding the Company, except as provided in this Section 10, Section 11 and Section 12 of this Agreement, Executive shall not respond (nor shall Executive initiate any such contact) and shall promptly notify the Company's Global Public Affairs Department at 724.514.1968 or gpa@viatris.com, or any successor department. Pursuant to the Defend Trade Secrets Act of 2016, Executive is hereby notified that an individual may not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret that (i) is made in confidence to a federal, state or local government official (directly or indirectly) or to an attorney solely for the purpose of reporting or investigating a suspected violation of law or (ii) is made in a complaint or other document filed in a lawsuit or other proceeding, if (and only if) such filing is made under seal. In addition, an individual who files a lawsuit for retaliation by an employer for reporting a suspected violation of law may disclose the trade secret to the individual's attorney and use the trade secret information in the court proceeding, if the individual files any document containing the trade secret under seal and does not disclose the trade secret, except pursuant to court order.

11. Limits on Cooperation; Compliance. Executive agrees that Executive shall not knowingly encourage, counsel or assist any attorneys or their clients in the presentation or prosecution of any disputes, differences, grievances, claims, charges or complaints by any third party, against the Company, other than good faith assistance to a law enforcement or authorized regulatory agency of the United States Government or any state or local government. Executive may, however, respond to a lawful subpoena or other court order to do so or as related directly to the ADEA waiver in this Agreement or as otherwise required by law. Executive agrees both to promptly notify the Company upon receipt of any such subpoena or court order, and to furnish, within three (3) business days of its receipt, a copy of such subpoena or other court order. If approached by anyone, other than a law enforcement or authorized regulatory agency of the United States Government or any state or local government, for counsel or assistance in the presentation or prosecution of any disputes, differences, grievances, claims, charges or complaints against the Company, Executive shall state no more than that Executive cannot provide counsel or assistance. If approached for counsel or assistance as aforementioned, whether by private parties or law enforcement or regulatory agencies, subject to and as limited by applicable rules governing attorney professional conduct, Executive shall promptly notify the Company of such an occurrence, and provide information to the Company regarding any such communication. While Executive may respond in good faith to lawful inquiries by law enforcement or regulatory agencies, Executive shall notify any such agencies of Executive's obligations with respect to confidentiality under this Agreement, the Confidentiality Agreement, and any other applicable agreements, and Executive shall continue to honor such obligations in the course of responding to law enforcement or regulatory agency inquiries, as lawfully permitted. Executive understands that nothing contained in this Agreement limits Executive's ability to file a charge or complaint with the Securities and Exchange Commission (the "SEC") pursuant to Section 21F of the Securities Exchange Act of 1934, as amended, limits Executive's ability to communicate with the SEC pursuant to such provision or limits Executive's right to receive an award for information provided to the SEC pursuant to such provision. Furthermore, Executive hereby represents that Executive is not aware of any violation of any law, Company policy or the Company's Code of Conduct in any event which could cause harm (financial or otherwise) to the Company or any of its subsidiaries, parents or affiliates or their respective properties, shareholders, employees or prospects, other than matters which Executive has

previously reported to the Office of Global Compliance, the Viatris Legal Department or any successor department. Executive shall use Executive's reasonable best efforts to consult with the Company and respond at reasonable times or intervals to the Company's reasonable requests for information or follow-up assistance pertaining to work Executive performed, directed or oversaw on behalf of the Company and/or any subsidiary or affiliate, or other matters in which Executive was involved or of which Executive was otherwise aware. Executive's obligations hereunder shall include without limitation Executive's response to requests of legal counsel for the Company and/or any subsidiary or affiliate regarding any legal matters or proceedings of any kind currently pending or which may arise after the Separation Date. The Company will reimburse Executive for any expenses incurred by Executive in connection with such requests or assistance if approved by the Company's Legal Department and supported by required documentation. No payment made to Executive hereunder is intended to be or shall be interpreted as a payment for testimony in any legal matter. Executive understands that Executive is to provide Executive's good faith assistance, and agrees to provide truthful responses to any requests for information or testimony. For the avoidance of doubt, Executive shall remain entitled to indemnification from the Company pursuant to any indemnification agreement between Executive and the Company or charter or by-law provision, in each case, pursuant to the terms thereof.

12. Mutual Non-Disparagement. Executive agrees to refrain from any disparaging statements, including but not limited to statements that amount to libel or slander, about the Company, its direct and indirect parents, subsidiaries or affiliated companies, and/or any of its or their current or former employees, officers or directors, and/or any of the other Releasees including, without limitation, the business, products, governance, intellectual property, financial standing, future prospects or other employment, compensation, benefit or personnel practices of the Company and/or any of the Releasees. Executive further agrees to refrain from any disparaging statements, including but not limited to libel or slander, about any of the Releasees that pertain to any personal or confidential matters that may cause embarrassment to any of the Releasees or may result in any adverse effect on the professional or personal reputation of any of the Releasees. The foregoing restrictions shall not apply to any testimony that Executive is compelled by law to give (whether written or verbal). The Company agrees to instruct its executive officers to refrain from any disparaging statements, including but not limited to libel or slander, about Executive that pertain to any personal or confidential matters that may cause embarrassment to Executive or may result in any adverse effect on the professional or personal reputation of Executive. The foregoing restrictions shall not apply to any testimony that any executive officer of the Company is compelled to give by law (whether written or verbal).

13. Material Breach of Agreement. If Executive commits a material breach of this Agreement, which shall include, without limitation, any material breach of Sections 8, 9, 10, 11 and 12 of this Agreement and any material breach of the Confidentiality Agreement, the Company shall be entitled to immediately recover and/or decline to provide the pro rata annual incentive payment described in Section 2(a) and to obtain damages or other remedies available by law, except as provided by law.

14. No Admission of Liability/Compromise. No action taken by the Company and/or any of the Releasees, either previously or in connection with this Agreement, shall be deemed or construed to be (a) an admission of the truth or falsity of any actual or potential claims or (b) an acknowledgment or admission by the Company and/or any of the Releasees of any fault or liability.

15. Costs. The Parties shall each bear their own costs, attorneys' fees and other fees incurred in connection with the preparation of this Agreement.

16. Choice of Law and Forum. This Agreement shall be construed and enforced according to, and the rights and obligations of the parties shall be governed in all respects by, the laws of the Commonwealth of Pennsylvania without reference to the principles of conflicts of law thereof. Any controversy, dispute or claim arising out of or relating to this Agreement, or the breach hereof, including a claim for injunctive relief, or any claim which in any way arises out of or relates to Executive's employment with the Company or separation from said employment (whether such dispute arises under any federal, state or local statute or regulation, or at common law), including but not limited to statutory claims for discrimination, shall be resolved by arbitration in accordance with the then-current rules of the American Arbitration Association respecting employment disputes pertaining at the time the dispute arises; *provided, however*, that either party may seek an injunction in aid of arbitration with respect to enforcement of Sections 8, 9, 10, 11 and/or 12 of this Agreement from any court of competent jurisdiction. The Parties agree that the hearing of any such dispute shall be held in Pennsylvania. The decision of the arbitrator(s) shall be final and binding on all parties and any award rendered shall be enforceable upon confirmation by a court of competent jurisdiction. Any arbitration proceedings, decision or award rendered hereunder, and the validity, effect and interpretation of this arbitration provision shall be governed by the Federal Arbitration Act, 9 U.S.C. § 1 *et seq.* Executive and the Company expressly consent to the jurisdiction of any such arbitrator over them.

17. Tax Consequences. The Company makes no representations or warranties with respect to the tax consequences of the payments and any other consideration provided to Executive or made on Executive's behalf under the terms of this Agreement. Executive agrees and understands that Executive is responsible for payment, if any, of local, state and/or federal taxes on the payments and any other consideration provided hereunder by the Company and any penalties or assessments thereon. The intent of the parties is that payments and benefits under this Agreement comply with Section 409A of the Internal Revenue Code (the "Code") to the extent subject thereto, and, accordingly, to the maximum extent permitted, this Agreement shall be interpreted and administered to be in compliance therewith. Notwithstanding anything contained herein to the contrary, to the extent required in order to avoid accelerated taxation and/or tax penalties under Section 409A of the Code, Executive shall not be considered to have terminated employment with the Company for purposes of this Agreement and no payments shall be due to Executive under Section 2 of this Agreement until Executive would be considered to have incurred a "separation from service" from the Company within the meaning of Section 409A of the Code. For purposes of this Agreement, each amount to be paid or benefit to be provided shall be construed as a separate identified payment for purposes of Section 409A of the Code, and any payments described in Section 2 that are due within the "short term deferral period" as defined in Section 409A of the Code shall not be treated as deferred compensation unless applicable law requires otherwise. To the extent required in order to avoid accelerated taxation and/or tax penalties under Section 409A of the Code, amounts that would otherwise be payable and benefits that would otherwise be provided pursuant to this Agreement during the six-month period immediately following Executive's termination of employment shall instead be paid in a lump sum on the first regularly scheduled Company payroll date occurring after the six-month anniversary of the Separation Date (or death, if earlier). To the extent required to avoid an accelerated or additional tax under Section 409A of the Code, amounts reimbursable to Executive under this Agreement shall be paid to Executive on or before the last day of the year following the year in which the expense was incurred and the amount of expenses eligible for reimbursement (and in-kind benefits provided to Executive) during any one year may not affect amounts reimbursable or provided in any subsequent year; *provided, however*, that with respect to any reimbursements for any taxes which Executive would become entitled to under the terms of the Agreement, the payment of such reimbursements shall be made by the Company no later than the end of the calendar year following the calendar year in which Executive remits the related taxes.

18. Authority. The Company represents and warrants that the undersigned has the authority to act on behalf of the Company and to bind the Company and all who may claim through it to the terms and conditions of this Agreement. Executive represents and warrants that Executive has the capacity to act on Executive's own behalf and on behalf of all who might claim through Executive to bind them to the terms and conditions of this Agreement. Each Party warrants and represents that there are no liens or claims of lien or assignments in law or equity or otherwise of or against any of the claims or causes of action released herein.

19. No Representations. Executive represents that Executive has had an opportunity to consult with an attorney and has carefully read and understands the scope and effect of the provisions of this Agreement. Executive has not relied upon any representations or statements made by the Company that are not specifically set forth in this Agreement.

20. Severability. In the event that any provision or any portion of any provision hereof or any surviving agreement made a part hereof becomes or is declared by a court of competent jurisdiction or arbitrator to be illegal, unenforceable or void, this Agreement shall continue in full force and effect without said provision or portion of provision.

21. Attorneys' Fees. Except with regard to a legal action challenging or seeking a determination in good faith of the validity of the waiver herein under the ADEA or otherwise prohibited by law, in the event that either Party brings an action to enforce or effect its rights under this Agreement, the prevailing Party shall be entitled to recover its costs and expenses, including the costs of mediation, arbitration, litigation, court fees and reasonable attorneys' fees incurred in connection with such an action. Such costs and expenses shall be paid to the prevailing party as soon as practicable after the legal action is resolved and in no event later than March 15 of the year following resolution of the legal action.

22. Entire Agreement. This Agreement and the Confidentiality Agreement (as amended by this Agreement) represent the entire agreement and understanding between the Company and Executive concerning the subject matter of this Agreement and Executive's employment with and separation from the Company and the events leading thereto and associated therewith, and supersede and replace any and all prior negotiations, representations, agreements and understandings concerning the subject matter of such agreements, Executive's relationship with the Company and the parties' obligations following Executive's employment by the Company.

23. No Oral Modification. This Agreement may only be amended in a writing signed by Executive and the Company.

24. Governing Law. The laws of the Commonwealth of Pennsylvania govern this Agreement, without regard for choice-of-law provisions. Executive consents to personal and exclusive jurisdiction and venue in the Commonwealth of Pennsylvania.

25. Effective Date. This Agreement shall become immediately effective upon Executive's execution and delivery of this Agreement to the Company; *provided* that if Executive fails to comply with this Agreement (including the execution and non-revocation of the Release pursuant to Sections 4 and 5), Executive shall not receive any amounts set forth in Section 2(a).

26. Counterparts. This Agreement may be executed in counterparts and by facsimile, and each counterpart and facsimile shall have the same force and effect as an original and shall constitute an effective, binding agreement on the part of each of the undersigned.

27. Voluntary Execution of Agreement. Second Release

This release (this “Second Release”) is delivered by THEODORA MISTRAS (“Executive”) as of the date set forth below in connection with the Separation Agreement and Release between Executive and Viatris Inc. (together with its affiliates, the “Company”), dated as of [●] (the “Separation Agreement and Release”), and in connection with Executive’s separation from employment with the Company. Capitalized terms used but not defined herein shall have the meaning ascribed to them in the Separation Agreement and Release.

1. In consideration of the pro rata bonus payment eligibility and potential payment granted to Executive under Section 2(a) of the Separation Agreement and Release, which Executive acknowledges Executive would not otherwise be entitled to receive, Executive agrees that the consideration provided under the Separation Agreement and Release represents settlement in full of all outstanding obligations owed to Executive by the Company and its current and former officers, directors, employees, agents, investors, attorneys, shareholders, administrators, affiliates, direct and indirect parents and subsidiaries, benefit plans, plan administrators, insurers, trustees, divisions, and subsidiaries, predecessor and successor corporations and assigns, and all persons acting with or on behalf of them (collectively, the “Releasees”). Executive, on Executive’s own behalf and on behalf of Executive’s heirs, family members, executors, agents, and assigns, hereby and forever releases and discharges the Releasees from any and all claims, complaints, charges, duties, obligations, demands, or causes of action relating to any matters of any kind, whether presently known or unknown, suspected or unsuspected, that Executive may possess against any of the Releasees arising from any omissions, acts, failures to act, facts, or damages that have occurred up until and including the date Executive executes this Second Release, including, without limitation:

a. any and all claims relating to or arising from Executive’s employment relationship with the Company and/or any of the Releasees and the termination of that relationship;

b. any and all claims relating to, or arising from, Executive’s right to purchase, or actual purchase of shares of stock of the Company and/or any of the Releasees, including, without limitation, any claims for fraud, misrepresentation, breach of fiduciary duty, breach of duty under applicable state corporate law, and securities fraud under any state or federal law;

c. any and all claims for wrongful discharge of employment; termination in violation of public policy; discrimination; harassment; retaliation; breach of contract, both express and implied; breach of covenant of good faith and fair dealing, both express and implied; promissory estoppel; negligent or intentional infliction of emotional distress; fraud; negligent or intentional misrepresentation; negligent or intentional interference with contract or prospective economic advantage; unfair business practices; defamation; libel; slander; negligence; personal injury; assault; battery; invasion of privacy; false imprisonment; conversion; and disability benefits;

d. any and all claims under any policy, agreement, understanding or promise, written or oral, formal or informal, between any Releasee and Executive existing as of the date hereof (whether or not known or arising before, on or after the date Executive executes this Second Release);

e. any and all claims for violation of any federal, state, or municipal statute, including, but not limited to, Title VII of the Civil Rights Act of 1964; the Civil Rights Act of 1991; the Rehabilitation Act of 1973; the Americans with Disabilities Act of 1990; the Equal Pay Act; the Fair Labor Standards Act; the Fair Credit Reporting Act; the Age Discrimination in Employment Act of 1967; the Older Workers Benefit Protection Act; the Employee Retirement Income Security Act of 1974; the Worker Adjustment and Retraining Notification Act; the Family and Medical Leave Act; the Sarbanes-Oxley Act of 2002; the laws and Constitution of the Commonwealth of Pennsylvania, each as amended, or any other federal, state or local law, regulation, ordinance or common law;

f. any and all claims for violation of the federal or any state constitution;

g. any and all claims arising out of any other laws and regulations relating to employment or employment discrimination;

h. any claim for any loss, cost, damage, or expense arising out of any dispute over the non-withholding or other tax treatment of any of the proceeds received by Executive as a result of the Separation Agreement and Release;

i. any and all claims for attorneys' fees and costs; and

j. any other claims whatsoever.

Executive agrees that this Second Release shall be and remain in effect in all respects as a complete general release as to the matters released. This Second Release does not extend to any obligations incurred under the Separation Agreement and Release, any claims accruing after the execution of the Separation Agreement and Release, any rights Executive may have under any indemnification agreements or policies of the Company, or any D&O insurance policy maintained by the Company and/or any of the Releasees. This Second Release does not release claims under the Separation Agreement and Release (including the payments and benefits set forth in Section 2(a) thereof), and claims that cannot be released as a matter of law, including, but not limited to, Executive's right to file a charge with or participate in a charge by the Equal Employment Opportunity Commission, or any other local, state, or federal administrative body or government agency that is authorized to enforce or administer laws related to employment, against the Company (with the understanding that any such filing or participation does not give Executive the right to recover any monetary damages against the Company and/or any of the Releasees; and Executive's release of claims herein bars Executive from recovering such monetary relief from the Company and/or any of the Releasees). Executive represents that Executive has made no assignment or transfer of any right, claim, complaint, charge, duty, obligation, demand, cause of action, or other matter waived or released by this Second Release.

2. Executive acknowledges that Executive is waiving and releasing any rights Executive may have under the Age Discrimination in Employment Act of 1967 ("ADEA") and that this Second Release is knowing and voluntary. Executive agrees that this Second Release does not apply to any rights or claims that may arise under the ADEA after the date Executive executes this Second Release. Executive acknowledges that the consideration given for this Second Release is in addition to anything of value to which Executive was already entitled. Executive further acknowledges that Executive has been advised by this writing that: (a) Executive should consult with an attorney prior to executing this Second Release; (b) Executive has twenty-one (21) days within which to consider this Second Release; (c) Executive has seven (7) days following the execution of this Second Release to revoke this Second Release and may do so by writing to the Company's General Counsel; (d) this Second Release shall not be effective until after the revocation period has expired without revocation; and (e) nothing in this Second Release prevents or precludes Executive from challenging or seeking a determination in

good faith of the validity of this waiver under the ADEA, nor does it impose any condition precedent, penalties, or costs for doing so, unless specifically authorized by federal law. In the event Executive signs this Second Release and returns it to the Company in less than the 21-day period identified above, Executive hereby acknowledges that Executive has freely and voluntarily chosen to waive the time period allotted for considering this Second Release.

3. Executive acknowledges that Executive has been advised to consult with legal counsel and that Executive is familiar with the principle that a general release does not extend to claims that the releaser does not know or suspect to exist in Executive's favor at the time of executing the release, which, if known by Executive, must have materially affected Executive's settlement with the Releasee. Executive, being aware of said principle, agrees to expressly waive any rights Executive may have to that effect, as well as under any other statute or common law principles of similar effect.

4. Executive hereby acknowledges and agrees that the covenant with respect to pending or future lawsuits set forth in Section 7 of the Separation Agreement and Release applies to all claims released pursuant to this Second Release.

I HAVE READ, UNDERSTAND, AND VOLUNTARILY AGREE TO THE TERMS OF THIS RELEASE.

**VIATRIS INC.
DIRECTOR DEFERRED STOCK UNIT
AWARD AGREEMENT**

THIS DIRECTOR DEFERRED STOCK UNIT AWARD AGREEMENT (this “Agreement”), dated as of [_____] (the “Date of Grant”), is made by and between Viatris Inc., a Delaware corporation (the “Company”), and [_____] (the “Participant”) in respect of Participant’s service as a member of the Board of Directors of the Company.

1. Grant of Deferred Stock Units.

(a) Grant. The Company hereby grants to the Participant a total of [_____] Deferred Stock Units (“DSUs”), on the terms and conditions set forth in this Agreement and as otherwise provided in the Viatris Inc. 2020 Stock Incentive Plan (as may be amended from time to time, the “Plan”) and the Viatris Inc. Non-Employee Director Deferral Election entered into by the Participant for the applicable calendar year and provided to the Company prior to the Grant Date (the “Deferral Election”). Each DSU represents the right to receive one share of the Company’s common stock, par value \$0.01 per share (“Share”). The DSUs shall be credited to a separate book-entry account maintained for the Participant on the books of the Company.

(b) Incorporation by Reference, Etc. The provisions of the Plan are hereby incorporated herein by reference. Except as otherwise expressly set forth herein, this Agreement shall be construed in accordance with the provisions of the Plan and any interpretations, amendments, rules and regulations promulgated by the Committee from time to time pursuant to the Plan. Any capitalized terms not otherwise defined in this Agreement shall have the definitions set forth in the Plan. The Committee shall have final authority to interpret and construe the Plan and this Agreement and to make any and all determinations under them, and its decision shall be binding and conclusive upon the Participant and his or her legal representative in respect of any questions arising under the Plan or this Agreement. The Participant acknowledges that the Participant has received a copy of the Plan and has had an opportunity to review the Plan and agrees to be bound by all the terms and provisions of the Plan. Without limiting the foregoing, the Participant acknowledges that the DSUs and any Shares acquired upon settlement of the DSUs are subject to provisions of the Plan under which, in certain circumstances, an adjustment may be made to the number of the DSUs and any Shares acquired upon settlement of the DSUs.

2. Vesting; Settlement.

(a) Vesting. The DSUs shall be fully vested on the Date of Grant, subject to the terms of the Plan and this Agreement.

(b) Settlement. Except as otherwise provided herein, each vested DSU shall be settled in Shares in accordance with the Deferral Election.

3. Dividend Equivalents. Each DSU shall be credited with Dividend Equivalents, which shall be withheld by the Company and credited to the Participant's account (either in cash or additional DSUs in the discretion of the Committee). Dividend Equivalents credited to the Participant's account and attributable to a DSU shall be distributed (without interest) to the Participant at the same time as the underlying Share is delivered upon settlement of such DSU and, if such DSU is forfeited, the Participant shall have no right to such Dividend Equivalents. Any adjustments for Dividend Equivalents shall be in the sole discretion of the Committee and Dividend Equivalents shall be paid either in cash or Shares in the discretion of the Committee. It is the current intention of the Company that Dividend Equivalents will accrue in additional DSUs.

4. Tax Withholding. Vesting and settlement of the DSUs shall be subject to the Participant satisfying any applicable U.S. Federal, state and local tax withholding obligations and non-U.S. tax withholding obligations. The Company shall be entitled, if the Committee deems it necessary or desirable, to withhold (or secure payment from the Participant in lieu of withholding) the maximum amount of any withholding or other tax permitted by law to be withheld. The Company shall have the right and is hereby authorized to withhold from any amounts payable to the Participant in connection with the DSUs or otherwise the amount of any required withholding taxes in respect of the DSUs, its settlement or any payment or transfer of the DSUs or under the Plan and to take any such other action as the Committee or the Company deem necessary to satisfy all obligations for the payment of such withholding taxes. The Participant may satisfy, in whole or in part, the tax obligations by authorizing the Company to withhold Shares that would otherwise be deliverable to the Participant upon settlement of the DSUs with a Fair Market Value equal to such withholding liability.

5. Change in Control. Notwithstanding anything to the contrary in the Plan, in the event of a Change in Control, the treatment of the DSUs shall be determined pursuant to the Deferral Election.

6. Rights as a Stockholder. The Participant shall not be deemed for any purpose, nor have any of the rights or privileges of, a stockholder of the Company in respect of any Shares underlying the DSUs unless, until and to the extent that (i) the Company shall have issued and delivered to the Participant the Shares underlying the vested DSUs and (ii) the Participant's name shall have been entered as a stockholder of record with respect to such Shares on the books of the Company. The Company shall cause the actions described in clauses (i) and (ii) of the preceding sentence to occur promptly following settlement as contemplated by this Agreement, subject to compliance with applicable laws.

7. Compliance with Legal Requirements. The granting and settlement of the DSUs, and any other obligations of the Company under this Agreement, shall be subject to all applicable Federal, provincial, state, local and foreign laws, rules and regulations and to such approvals by any regulatory or governmental agency as may be required. The Committee shall have the right to impose such restrictions on the DSUs as it deems reasonably necessary or advisable under applicable Federal securities laws, the rules and regulations of any stock exchange or market

upon which Shares are then listed or traded, and/or any blue sky or state securities laws applicable to such Shares. It is expressly understood that the Committee is authorized to administer, construe, and make all determinations necessary or appropriate to the administration of the Plan and this Agreement, all of which shall be binding upon the Participant. The Participant agrees to take all steps the Committee or the Company determines are reasonably necessary to comply with all applicable provisions of Federal and state securities law in exercising his or her rights under this Agreement.

8. Clawback. The DSUs and/or the Shares acquired upon settlement of the DSUs shall be subject (including on a retroactive basis) to clawback, forfeiture or similar requirements (and such requirements shall be deemed incorporated by reference into this Agreement) to the extent required by applicable law (including, without limitation, Section 304 of the Sarbanes-Oxley Act and Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act) if such requirement is in effect at the relevant time, the rules and regulations of any applicable securities exchange or inter-dealer quotation system on which the Shares may be listed or quoted or if so required pursuant to a written policy adopted by the Company.

9. Miscellaneous.

(a) Transferability. The DSUs may not be assigned, alienated, pledged, attached, sold or otherwise transferred or encumbered (a “Transfer”) by the Participant other than by will or by the laws of descent and distribution, pursuant to a qualified domestic relations order or as otherwise permitted under the Plan. Any attempted Transfer of the DSUs contrary to the provisions hereof, and the levy of any execution, attachment or similar process upon the DSUs, shall be null and void and without effect.

(b) Amendment. The Committee at any time, and from time to time, may amend the terms of this Agreement; provided, however, that the rights of the Participant shall not be materially adversely affected without the Participant’s written consent.

(c) Waiver. Any right of the Company contained in this Agreement may be waived in writing by the Committee. No waiver of any right hereunder by any party shall operate as a waiver of any other right, or as a waiver of the same right with respect to any subsequent occasion for its exercise, or as a waiver of any right to damages. No waiver by any party of any breach of this Agreement shall be held to constitute a waiver of any other breach or a waiver of the continuation of the same breach. By accepting this grant of DSUs, the Participant hereby agrees that he or she shall be bound by, and shall comply with, (i) the Agreement Relating To Patents, Copyrights, Inventions, Confidentiality and Proprietary Information, in the form provided by the Company (if applicable) and (ii) all other agreements relating to confidentiality that the Participant has executed during the course of employment with the Company and its Affiliates as in effect from time to time (collectively, the “Executed Confidentiality Agreements”). Participant also agrees that, in addition to any Executed Confidentiality Agreements, Participant shall not use and/or communicate or disclose, in any manner, any confidential, proprietary or privileged Viatris company information or knowledge, which he or she may have had access to while employed with a Viatris company, relating to intellectual

Notwithstanding the foregoing or any provision of the Plan or this Agreement, if any provision of the Plan or this Agreement contravenes Section 409A of the Code or could cause the Participant to incur any tax, interest or penalties under Section 409A of the Code, the Committee may, in its sole reasonable discretion and with the Participant's consent, modify such provision to (i) comply with, or avoid being subject to, Section 409A of the Code, or to avoid the incurrence of taxes, interest and penalties under Section 409A of the Code, and (ii) maintain, to the maximum extent practicable, the original intent and economic benefit to the Participant of the applicable provision without materially increasing the cost to the Company or contravening the provisions of Section 409A of the Code. This Section 9(d) does not create an obligation on the part of the Company to modify the Plan or this Agreement and does not guarantee that the DSUs or the Shares underlying the DSUs will not be subject to interest and penalties under Section 409A of the Code.

(h) No Rights to Service. Nothing contained in this Agreement shall be construed as giving the Participant any right to be retained, in any position, as a director of the Company or its Affiliates or shall interfere with or restrict in any way the rights of the Company or its Affiliates, which are hereby expressly reserved, to remove, terminate or discharge the Participant at any time for any reason whatsoever.

(i) Fractional Shares. In lieu of issuing a fraction of a Share resulting from an adjustment of the DSUs pursuant to Section 4(c) of the Plan or otherwise, the Company shall be entitled to pay to the Participant an amount equal to the Fair Market Value of such fractional share.

(j) Beneficiary. The Participant may file with the Committee a written designation of a beneficiary on such form as may be prescribed by the Committee and may, from time to time, amend or revoke such designation. Notwithstanding the foregoing, however, a Participant's beneficiary shall be determined under applicable state law if such state law does not recognize beneficiary designations under Awards of this type and is not preempted by laws which recognize the provisions of this Section 9(j).

(k) Successors. The terms of this Agreement shall be binding upon and inure to the benefit of the Company and its successors and assigns, and of the Participant and the beneficiaries, executors, administrators, heirs and successors of the Participant.

cause the application of the laws of any jurisdiction other than the Commonwealth of Pennsylvania.

(o) Consent to Jurisdiction; Waiver of Jury Trial. The Participant and the Company (on behalf of itself and its Affiliates) each consents to jurisdiction in the United States District Court for the Western District of Pennsylvania, or if that court is unable to exercise jurisdiction for any reason, the Court of Common Pleas of Washington County, Pennsylvania, and each waives any other requirement (whether imposed by statute, rule of court or otherwise) with respect to personal jurisdiction or service of process and waives any objection to jurisdiction based on improper venue or improper jurisdiction. EACH OF THE PARTIES HERETO HEREBY IRREVOCABLY WAIVES ALL RIGHT TO TRIAL BY JURY, IN ANY ACTION, PROCEEDING OR COUNTERCLAIM ARISING OUT OF OR RELATING TO THE PLAN OR THIS AGREEMENT.

(p) Headings. The headings of the Sections hereof are provided for convenience only and are not to serve as a basis for interpretation or construction, and shall not constitute a part, of this Agreement.
